Doctor, you have to fix this, if not for your own sake, but for Twilight's. You owe it to her. You ruined her life by doing nothing, ironic isn't it? By doing nothing, you've done something you wanted to avoid, putting others at risk by your own hand, or hoof in this case. If you do nothing, she WILL die. You should know this better than anyone, or anypony.
If my doing nothing was a cause for this, then I know for a fact doing something will make it worse.

I believe this murderer is an old foe... maybe you'd remember if you were half the Time Lord you are now.
Can we stop talking about those Murders? It gives me the creeps.
I'm sure they can figure it out.

Doctor, would it really hurt at all to at least find out what changed everything? It's just info that you could pass on to somepony and then just leave again. Be like Sherlock Holmes, dear Doctor.
You just don't get it. Whenever I stick my nose in to something, everything goes wrong.

Doctor what will happen when everything fails? You can't save everyone, you know this, so why do you continue. You say you have given up and you want only to protect Twilight, but you know something will always go wrong. Poor, sad, pathetic Doctor.

ive been thinking and if coming into the ponyverse turned you into a pony then wouldn't taking marshmallow with you turn her into a human
No.

It would either keep her a pony or tear her apart from the inside out trying to change her to fit the 'human' shape as she screams in horrible agony until she's nothing but a pile of meat.

Trust me.
I know from experience.
Heh.

You sure you want to be doing this, Doctor? I'm all for you being happy, but I'm also worried about Twilight's safety. I'm also worried that, if you loose her, you'll finally go over the edge. Lets face it, there's not much difference between you and The Master. As bad as he is, you might just be capable of worse.
Will you just shut up? Nag nag nag, always comparing me to The Master.
I'm nothing like him!

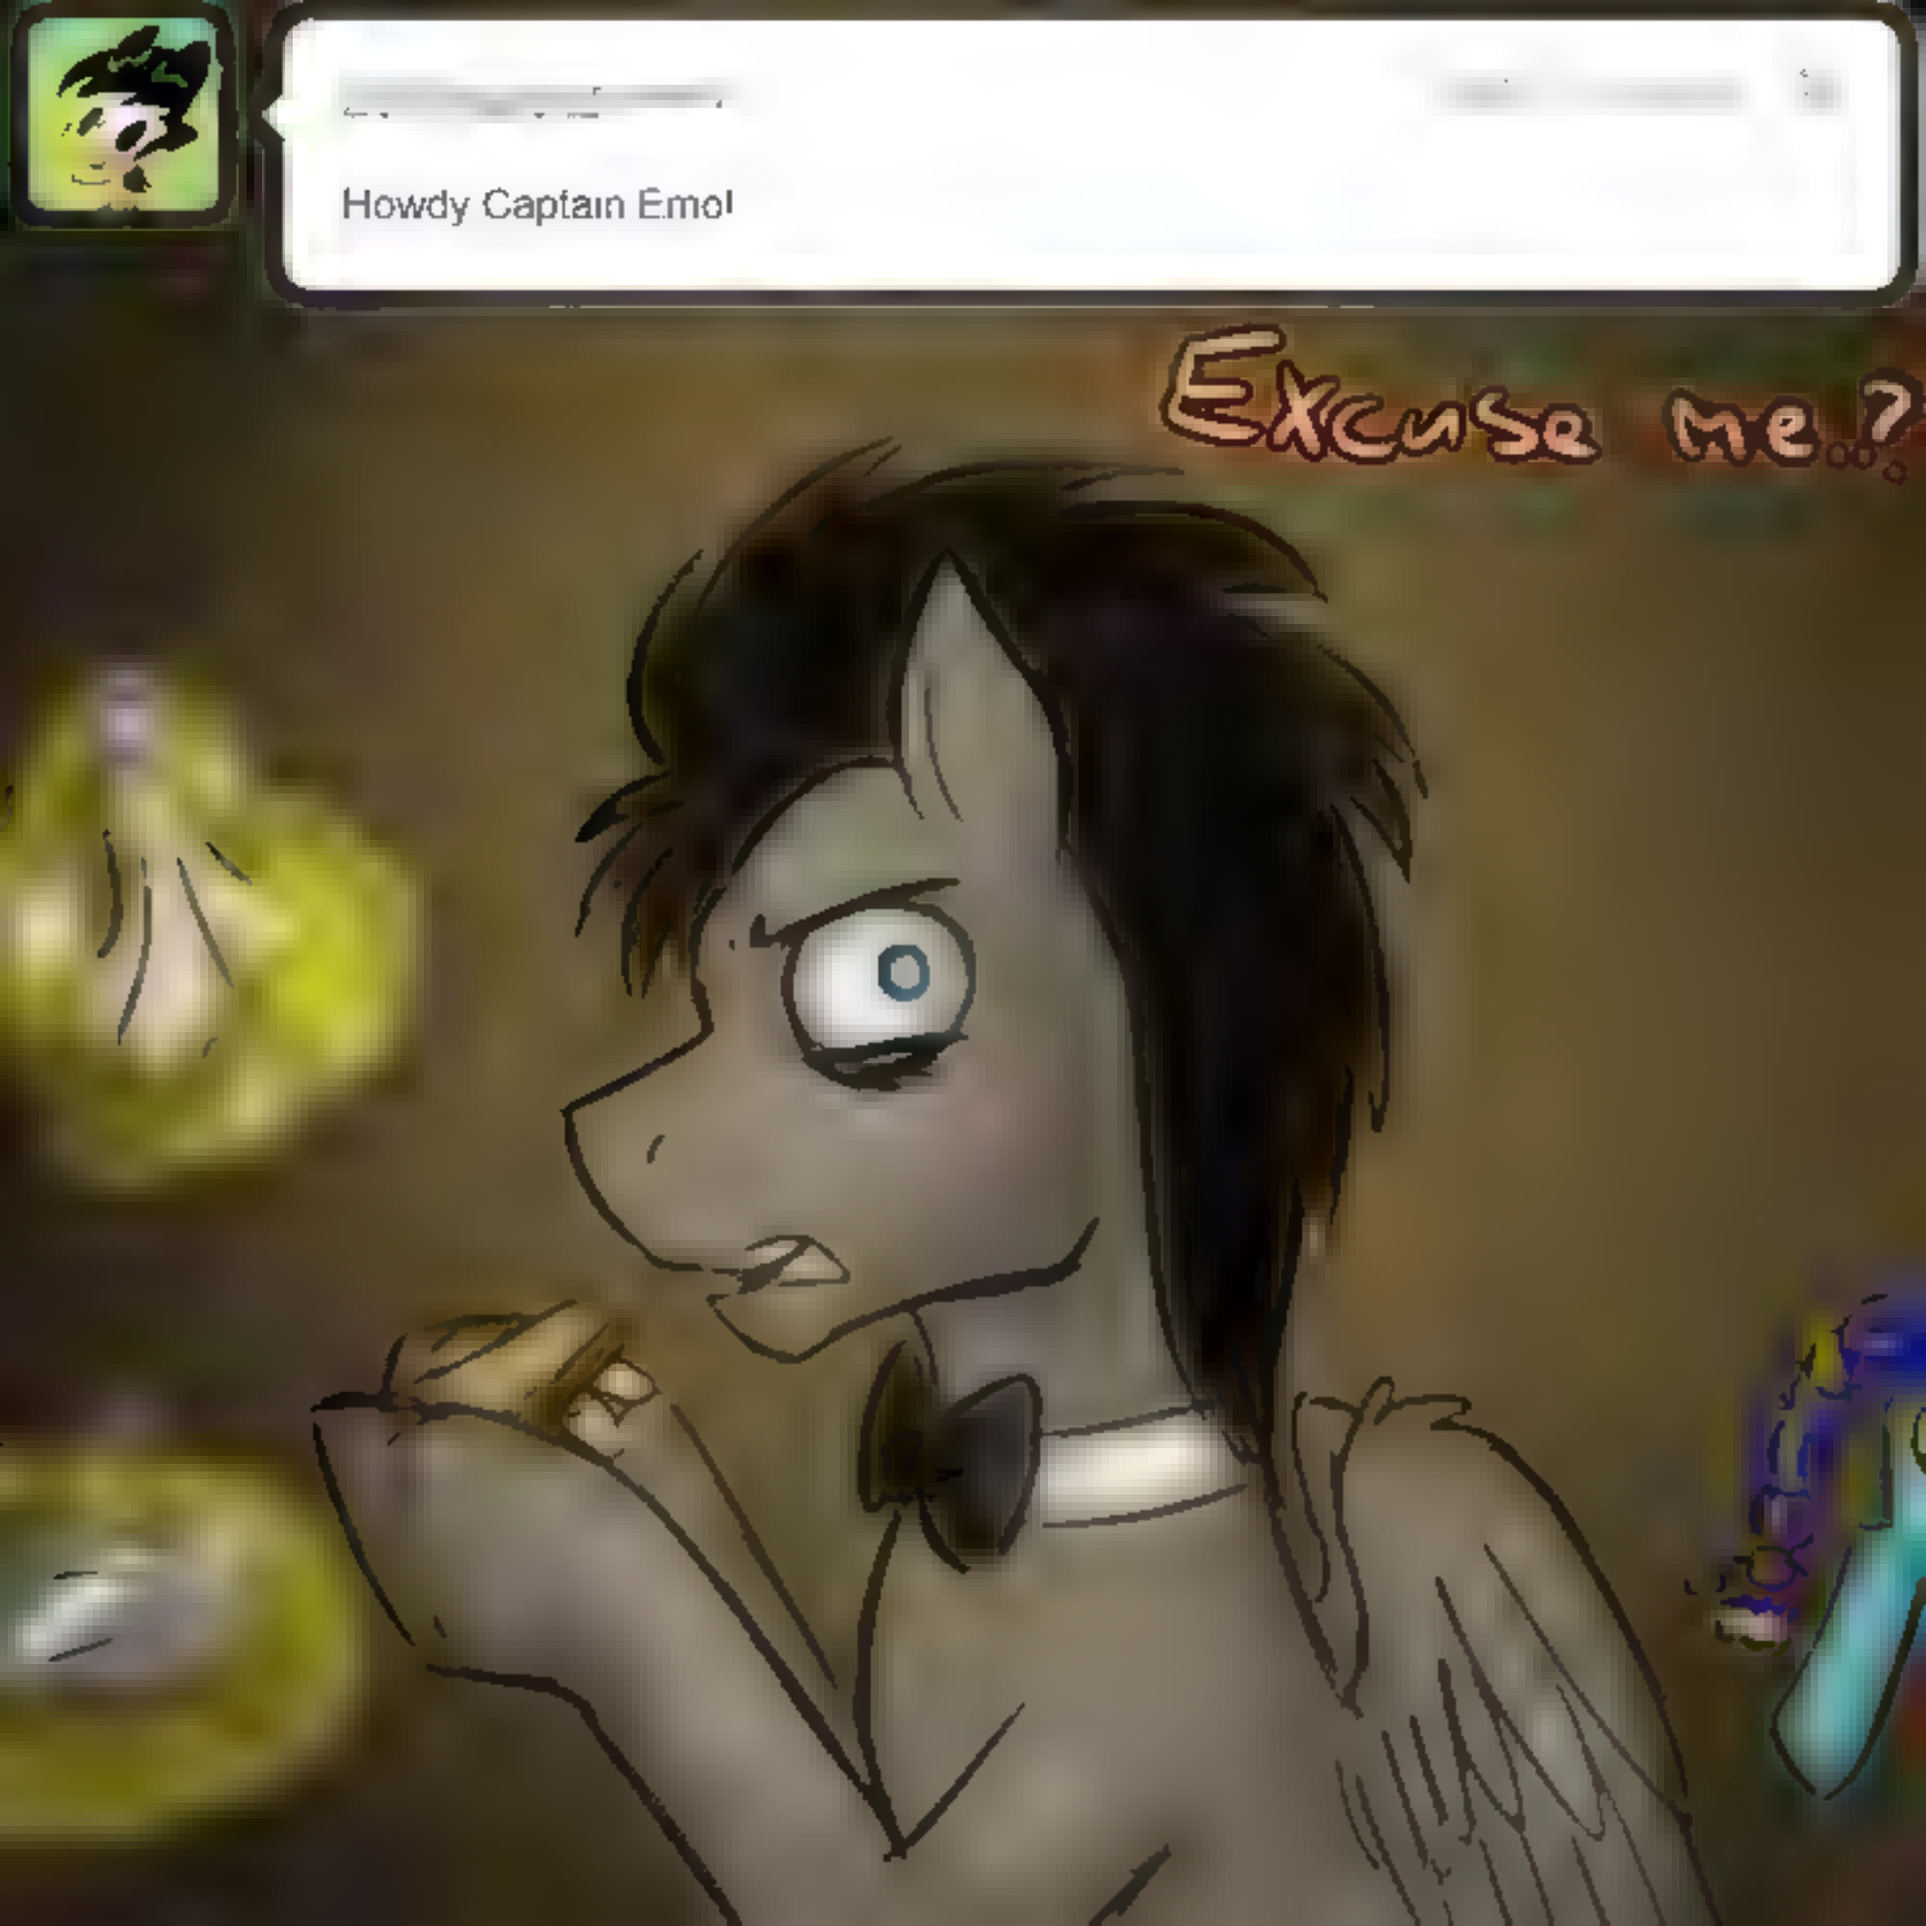
D-D-D- Don't be ridiculous....



Howdy Captain Emo!
Excuse me..?

Hey Big Nose! Because of you, Master came and bothered me! Thanks a lot Grimy Buttface
Sure thing four-eyes

Excuse me sir but have you ever thought of actually seeing a doctor of some sort? You don't seem to be stable physically OR mentally Maybe you should try getting some sort of help?

Maybe that Pun Pony who gave you the compan on cube could lighten your mood a bit, or at least provide a momentary distraction from it
Hmm...

So Mr Whooves, I saw ye p ning for yer Twi ght, with yer cute li' nickname for her Yer li' 'Marshmallow' so to say I guess you want to see *puts on eyepatch* 's'more' of her?
No...
Just...
No.

I'd rather not be reminded of my old horse-ible sense of humor.

Not being a pony myself, I have to ask. just how hard IS it to urinate in a form such as yours?

How-
did you know
about...?

Blimey these questions are more awkward than the time I had to break up with George...

Doctor I know you don't like us talking about Ditzy with you I apologize for that, though I must know do you actually think she betrayed you? She d'd only what you would have done, if you had switched places, please doctor for the sake of an old companion and friend give her closure If not, only remember, she always loved you
What would I have done?

If she hit me out of sheer panic I would have stayed by her side to comfort her!!!

I would have been smart enough to know she needed help and I would never EVER have left her in the dark!
I- I--!!

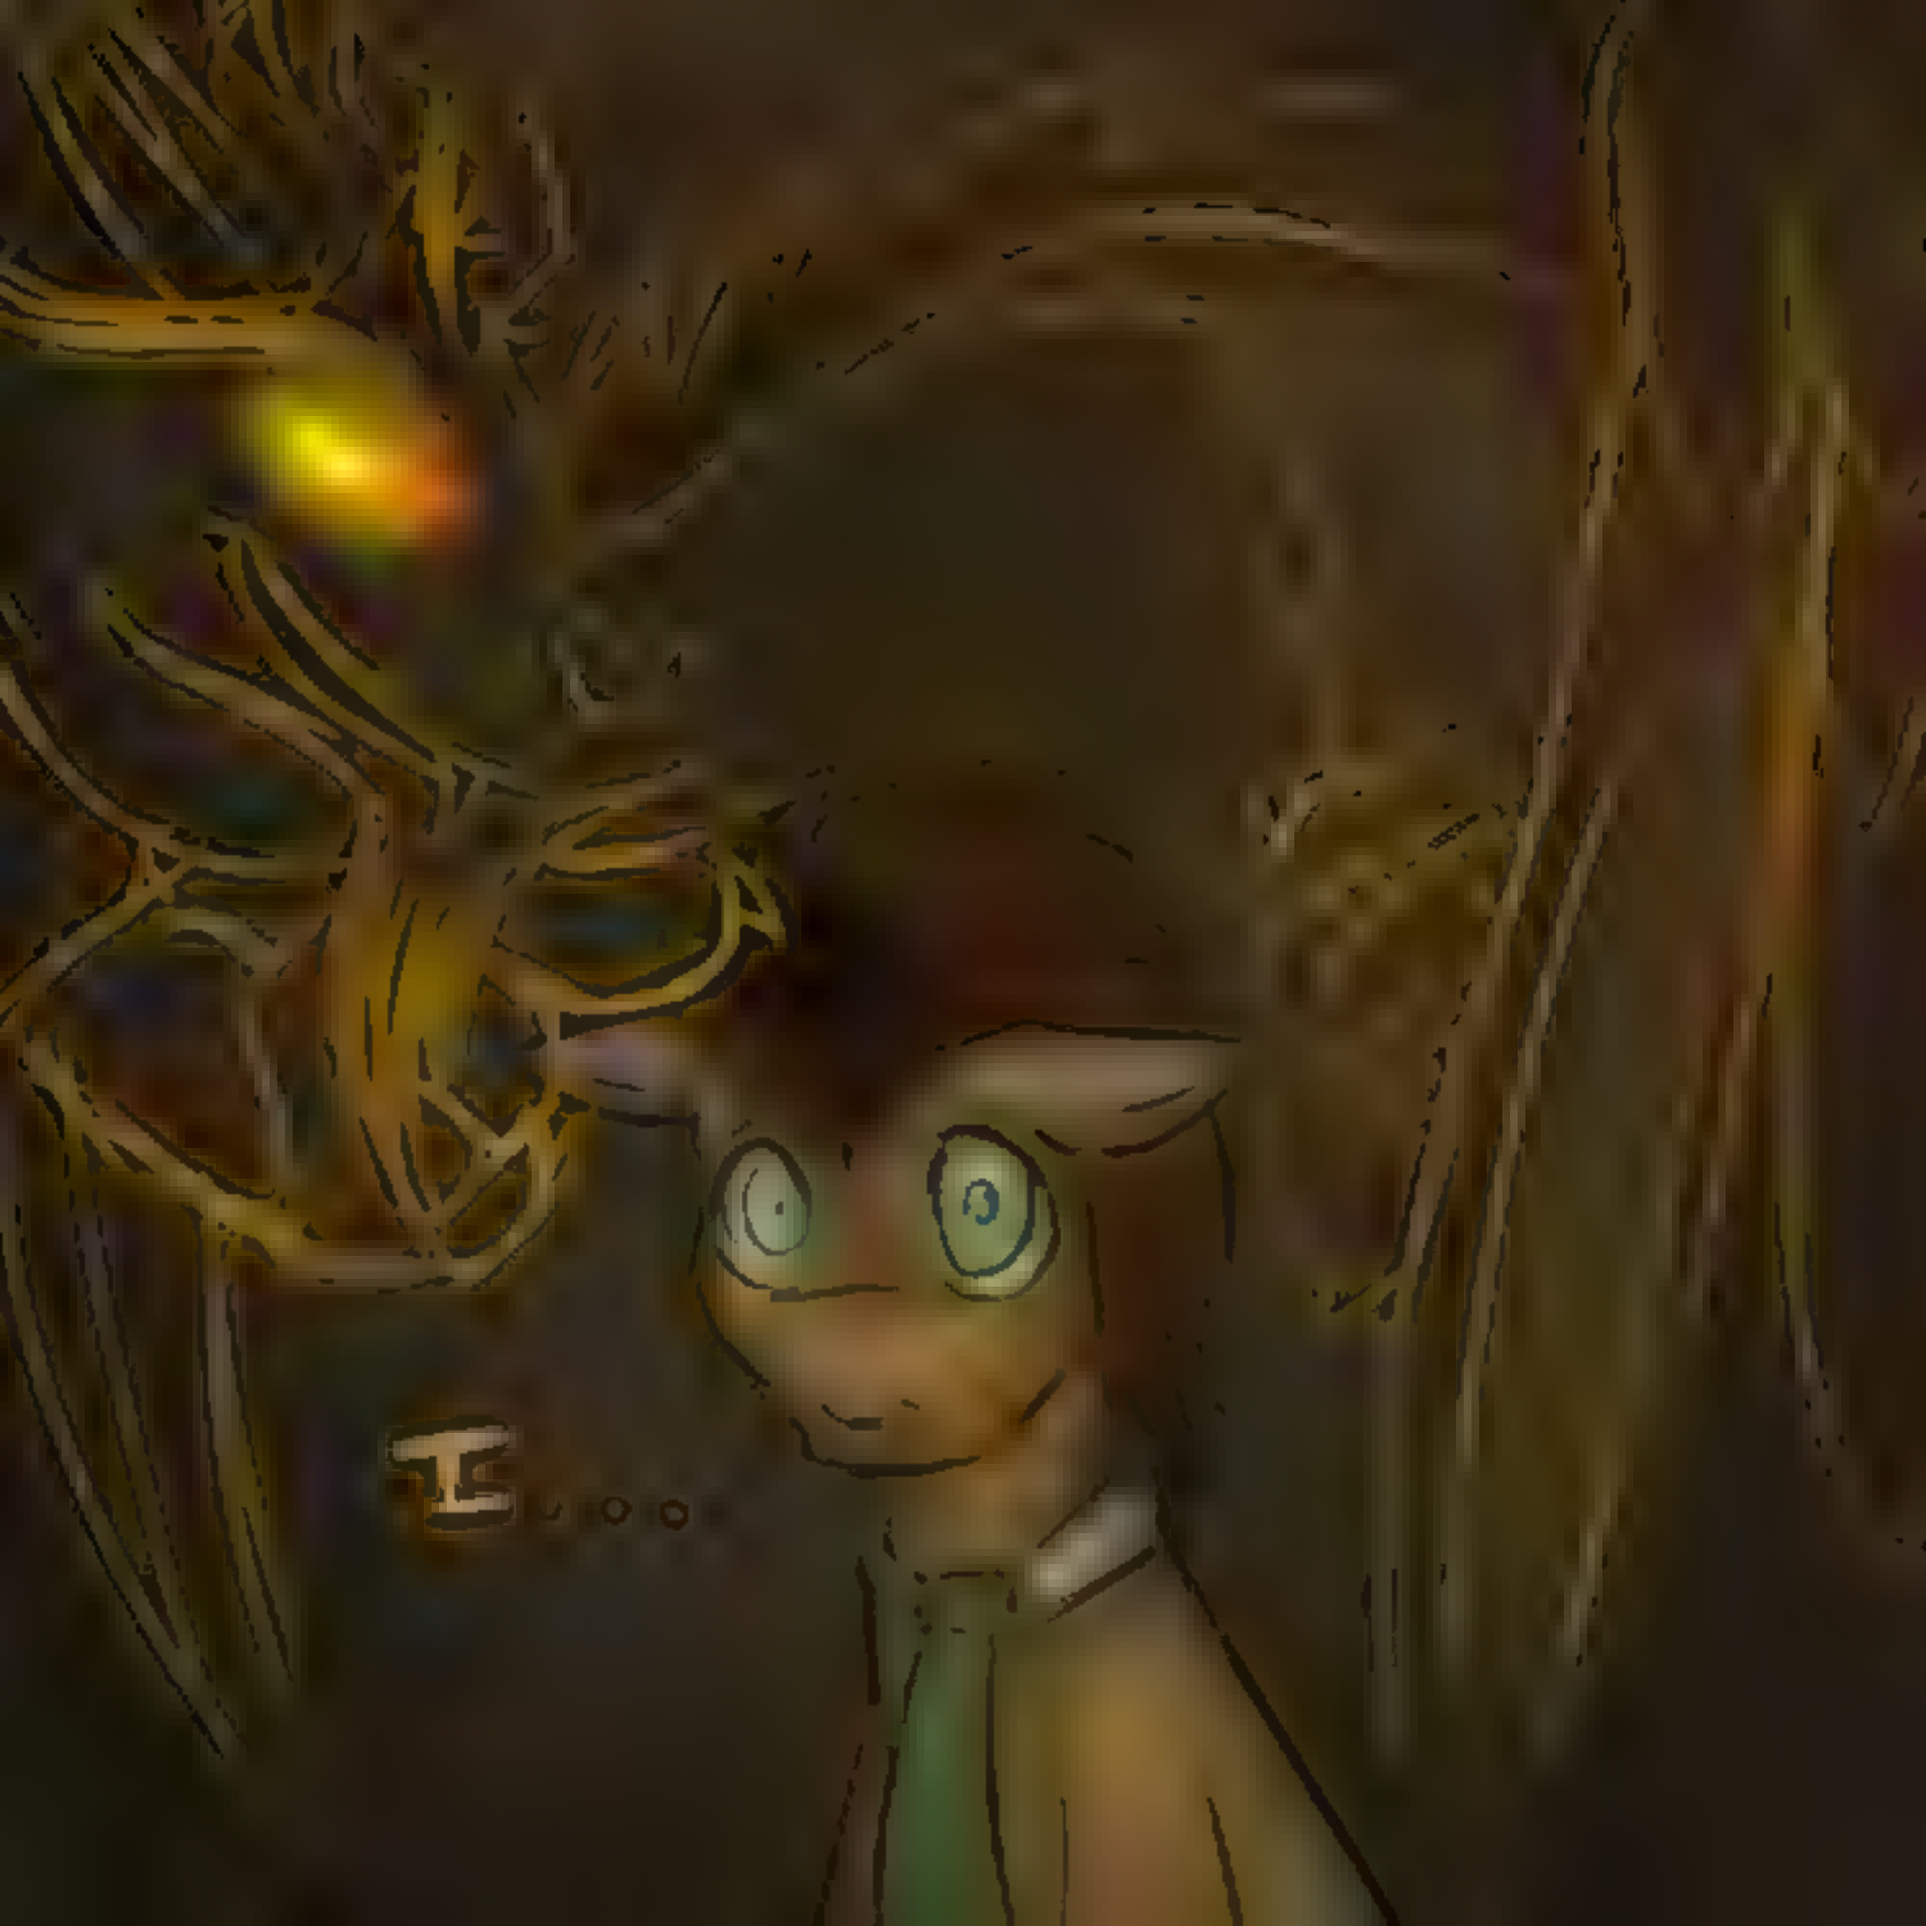
Ever w sh you could go back to the ignorance of not knowing the truth and being as you used to be?
No...

Hey Doctor you know you never really explained this to us but what did you see in the cave? Was it an old Companion you couldn't save, or maybe someone here you loved (derpy) and was dead by something you couldn't stop? What discorded you?
Hey Doctor what is this truth you saw? Why did you let it break your own truth?
It's none of your business.
My original "Truth" was a lie.

Tell us how you died I'm sure it's a memory that st cks out great y
I only remember flames.
The rest was lost, I can't remember...
Whenever I try it...
Hurts.
Inside, it hurts...

IN this universe do you worry you will eventua ly have to answer the question that must never be answered the one you've been running from al your life

Doctor
Who...?



I don't know...

Do you really not know who you are?
I know, yet at the same time, I don't...

Aren't you even a tad worried that maybe the alternate dimension may be going crazy?
Worried? Maybe a little...
I wonder what they're like...

I may not know much of Alternate Universes as you do but much like there is a world where there's a Twilight without friends, maybe there's a world where there's no Twilight, be it she died or never existed Can't you help her by taking her to that world? She'll have her friends again, and you don't have to worry about another Twilight meeting up with her
I suppose I could check around and see, but I don't think she'd want to be in a different Universe than her own... She doesn't seem the type to cheat, you know?

Don't let those others guilt you into doing someth ng dangerous You're safe Marshmal ow is safe Why not spend some time getting to know her?
'Getting to know'...
Alternate dimensions...
That gives me an idea.

Time to say 'hello'
to the Twilights
of the
Multiverse!!

Welcome to Midnight home of the Crystal Waterfalls.

No- Don't... Don't do that.

Bloody Gold-digger!!

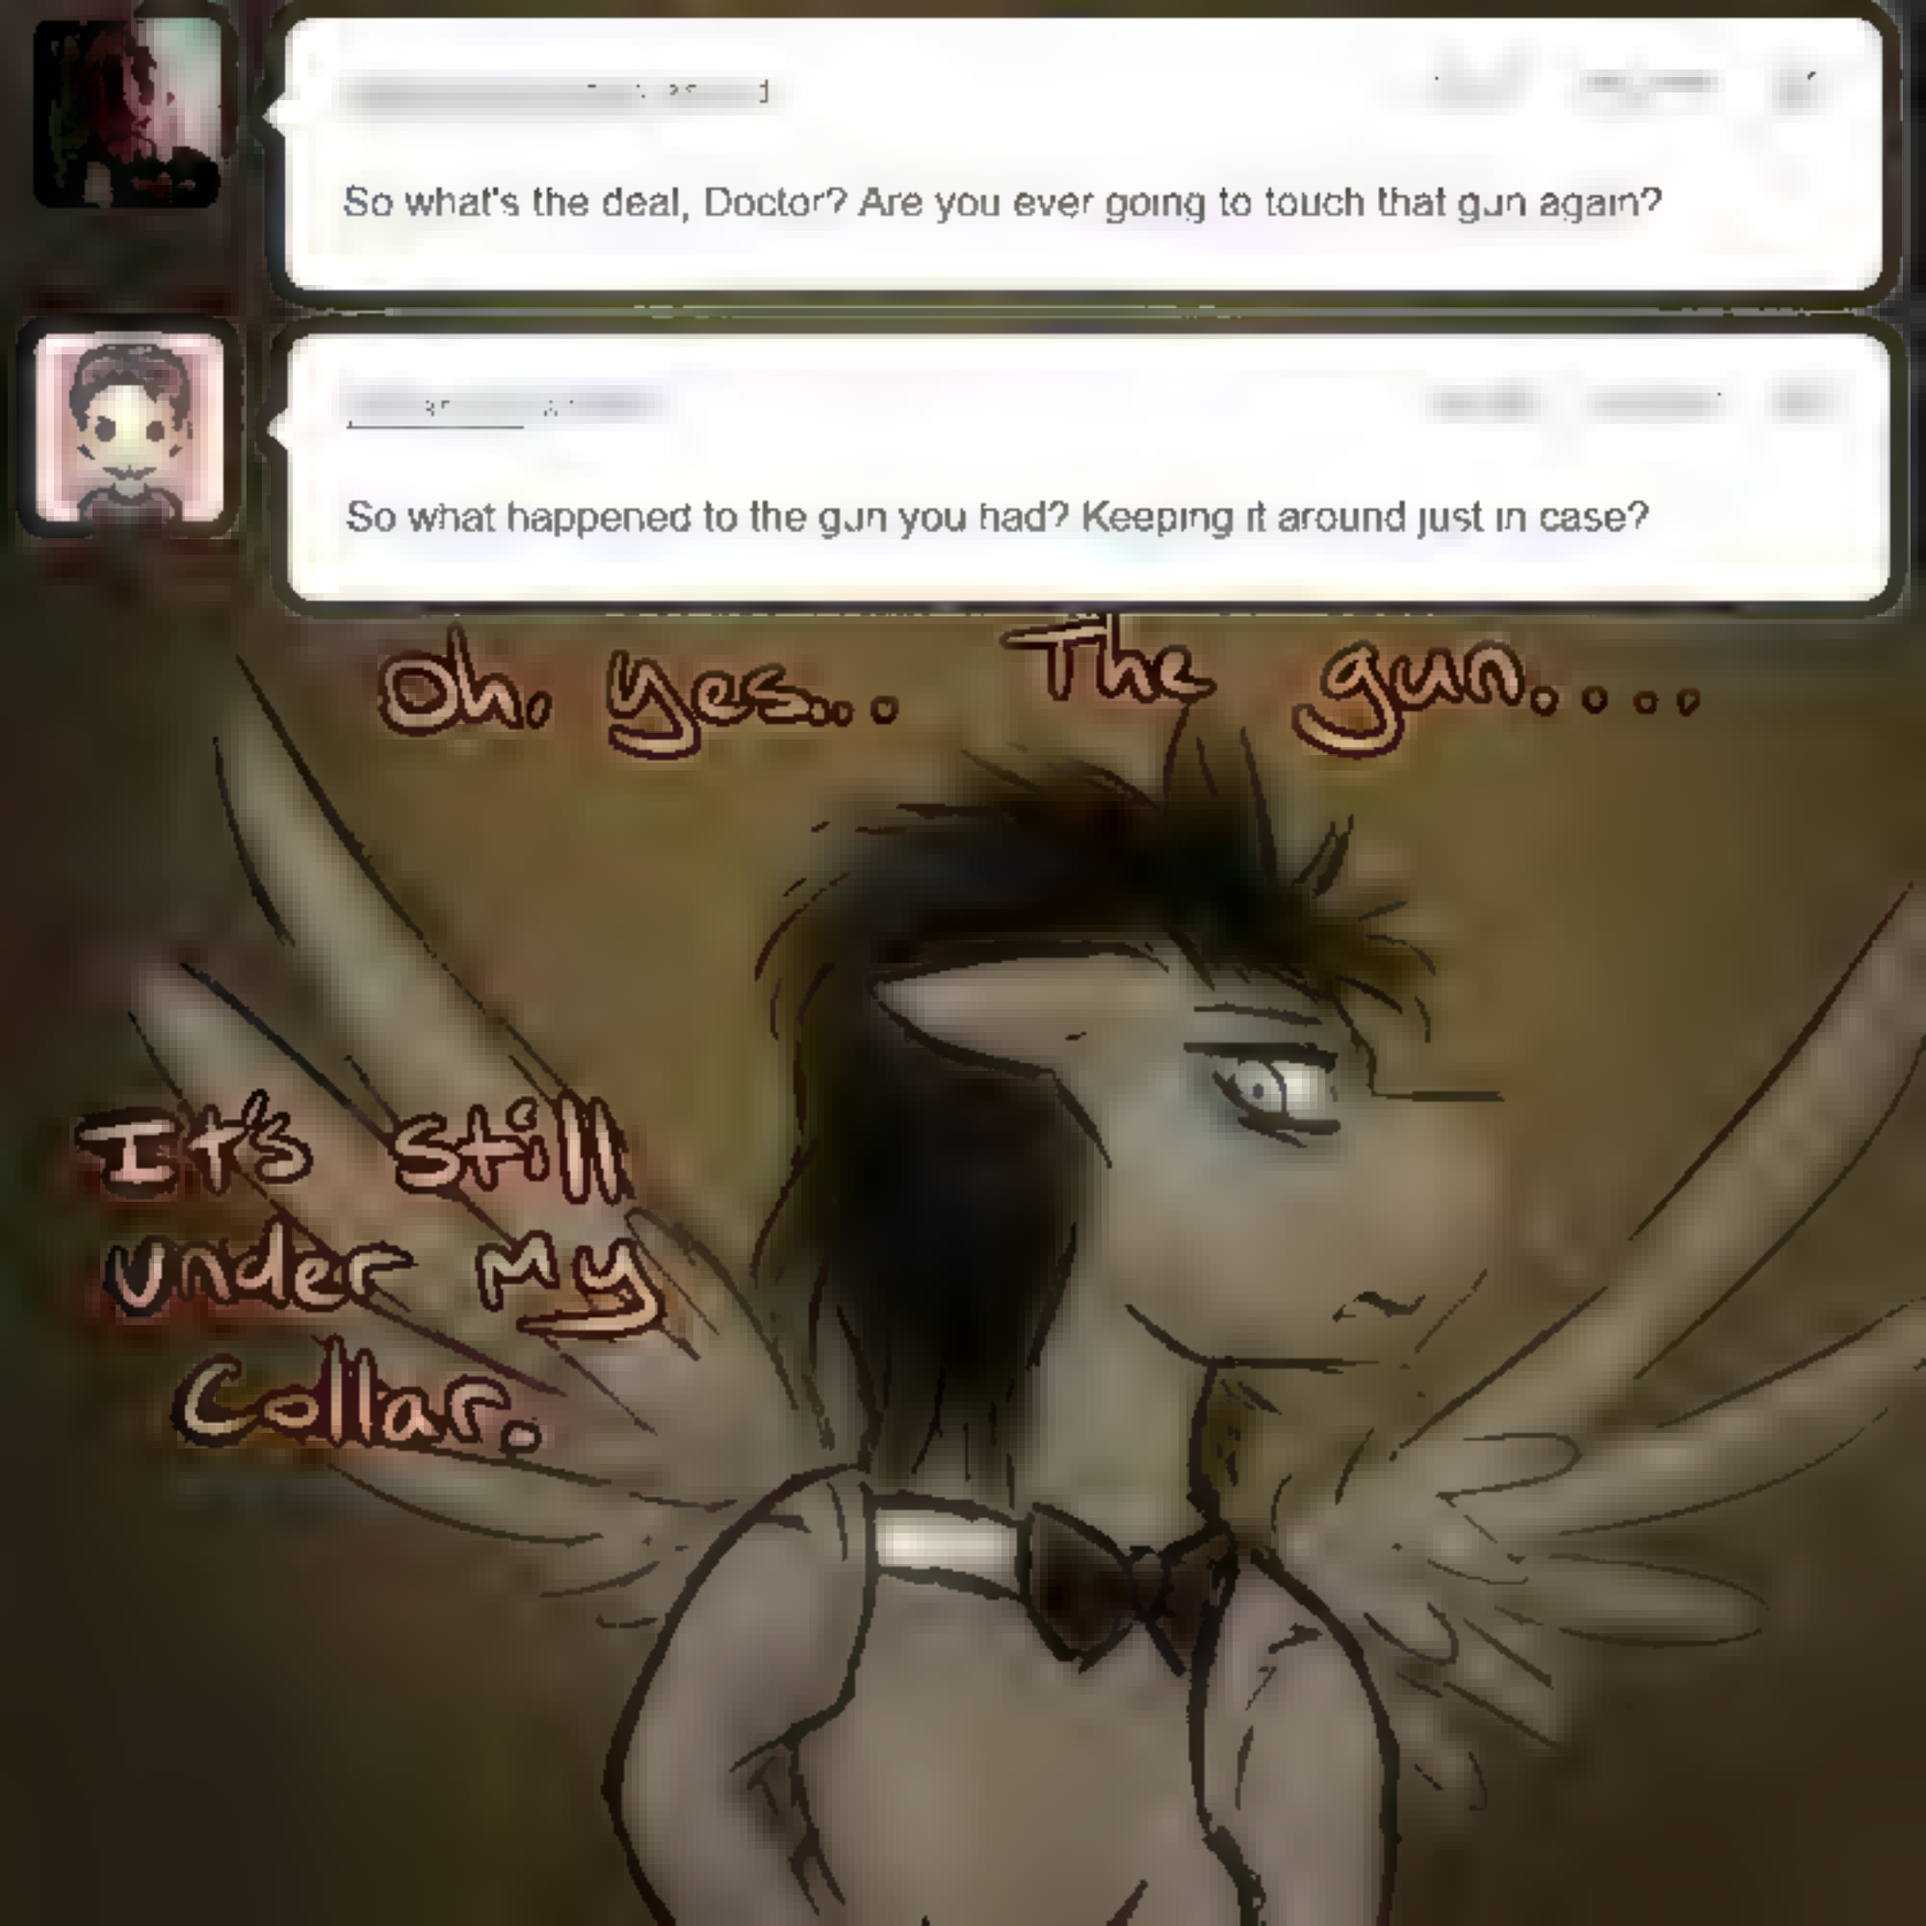
It's just not the same as MY Marshmallow..!

And I couldn't solve anything...

So tired...

Doctor you've had a rough day maybe you should get some sleep That usually helps to clear my mind

Doctor isten it is actually our business to know about you and your life We want to protect you and help you and make sure you understand what you're becoming. Just listen for once
Psht, what would any of you low-lifes know?



So what's the deal, Doctor? Are you ever going to touch that gun again?
So what happened to the gun you had? Keeping it around just in case?
Oh. Yes... The gun....
It's still under my collar.

Hey what'd you do with that gun? For that matter why haven't you done anything more about the Master? Have you forgotten about his threats?
What're you going to do with that gun? You haven't used it in a long time since that one time you were going insane
I haven't forgotten, I'm just frustrated that I missed.

Why do you still have the gun?
I need to find a way to aim and fire better. Just in case.

What are you going to do with the gun? I mean you hate hate hate HATE weapons so what are you going to do with it?
I don't hate weapons, I just don't like using them unless necessary. I've fired many a gun in my lives, you know.

Doctor Doctor isn't a gun a little primitive? Surely with tools around you you could make a better weapon suited for a TimeLord- maybe a sonic gun?
Maybe, yeah... But the first step is figuring out how to modify it for easier use...

So, now that you won't have sex anymore what other pursuits will you engage in?
I don't know, tinkering? Exploring harmless places?
I'm so bored...
Ow... Stupid morning wing cramps...

" Whoah, whoah whoah doc Sounds to me ike you've got a bad case of the 'sobriety' How about we cleanse that aching soul of yours with this bottle of whiskey and a few shots of vodka? As chagrin as I am to say this it's on me "
Having a drink with a historical bandit of Equestria...?!

Not only that but a gunslinger who can undoubtedly look at My pistol?

Hey Doc You need to ca m down relax and think of what to do next or perhaps what not to do How about you go to a club or bar in Manehatten for awh le?
Relax, drink up. Stop worryin' about everything.
Drinks are on me.

Oh, yeah, think you could Modify this for me a bit?
Easy as a Mare in spring.

Hahaha, oh, that's a good one and don't I know it!
You've got quite a rep with the fillies, I hear.
would almost make me jealous if I wasn't the same way.

You know, you remind me of an old chum of mine, The Corsair... Oh the things we did!

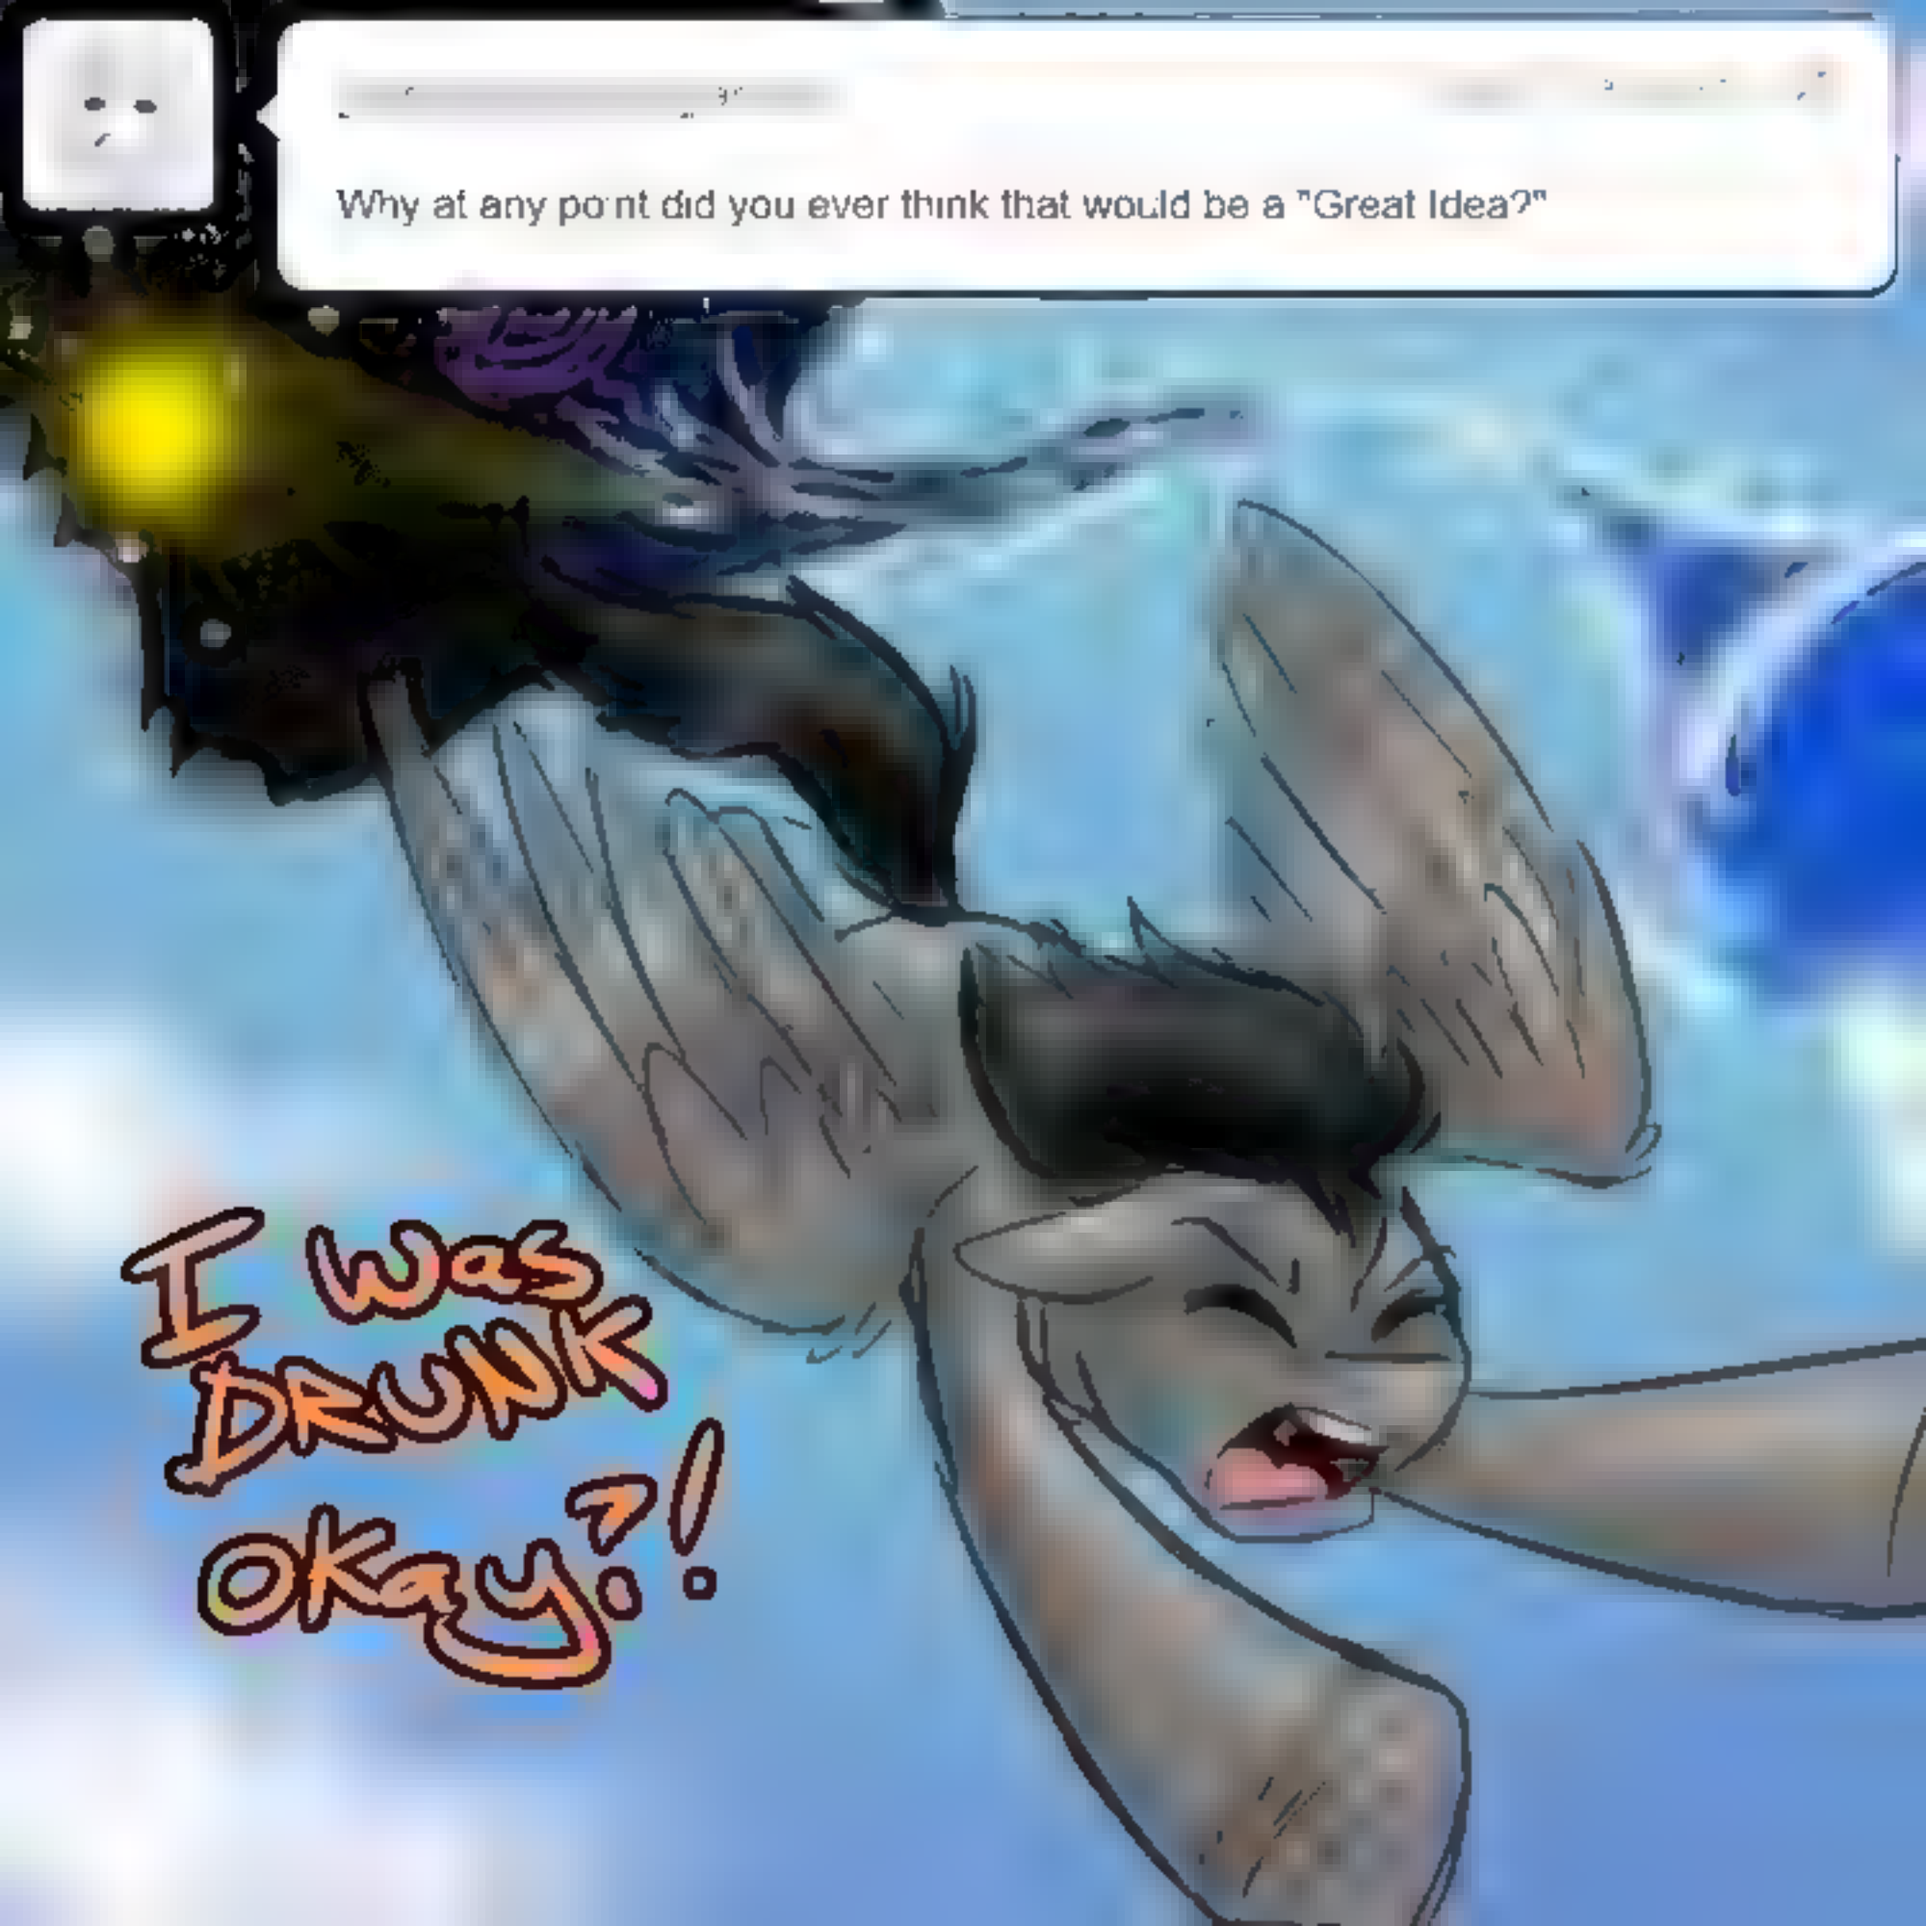
Aye still got a lotta Kick left in meh JAN IM BORED!!

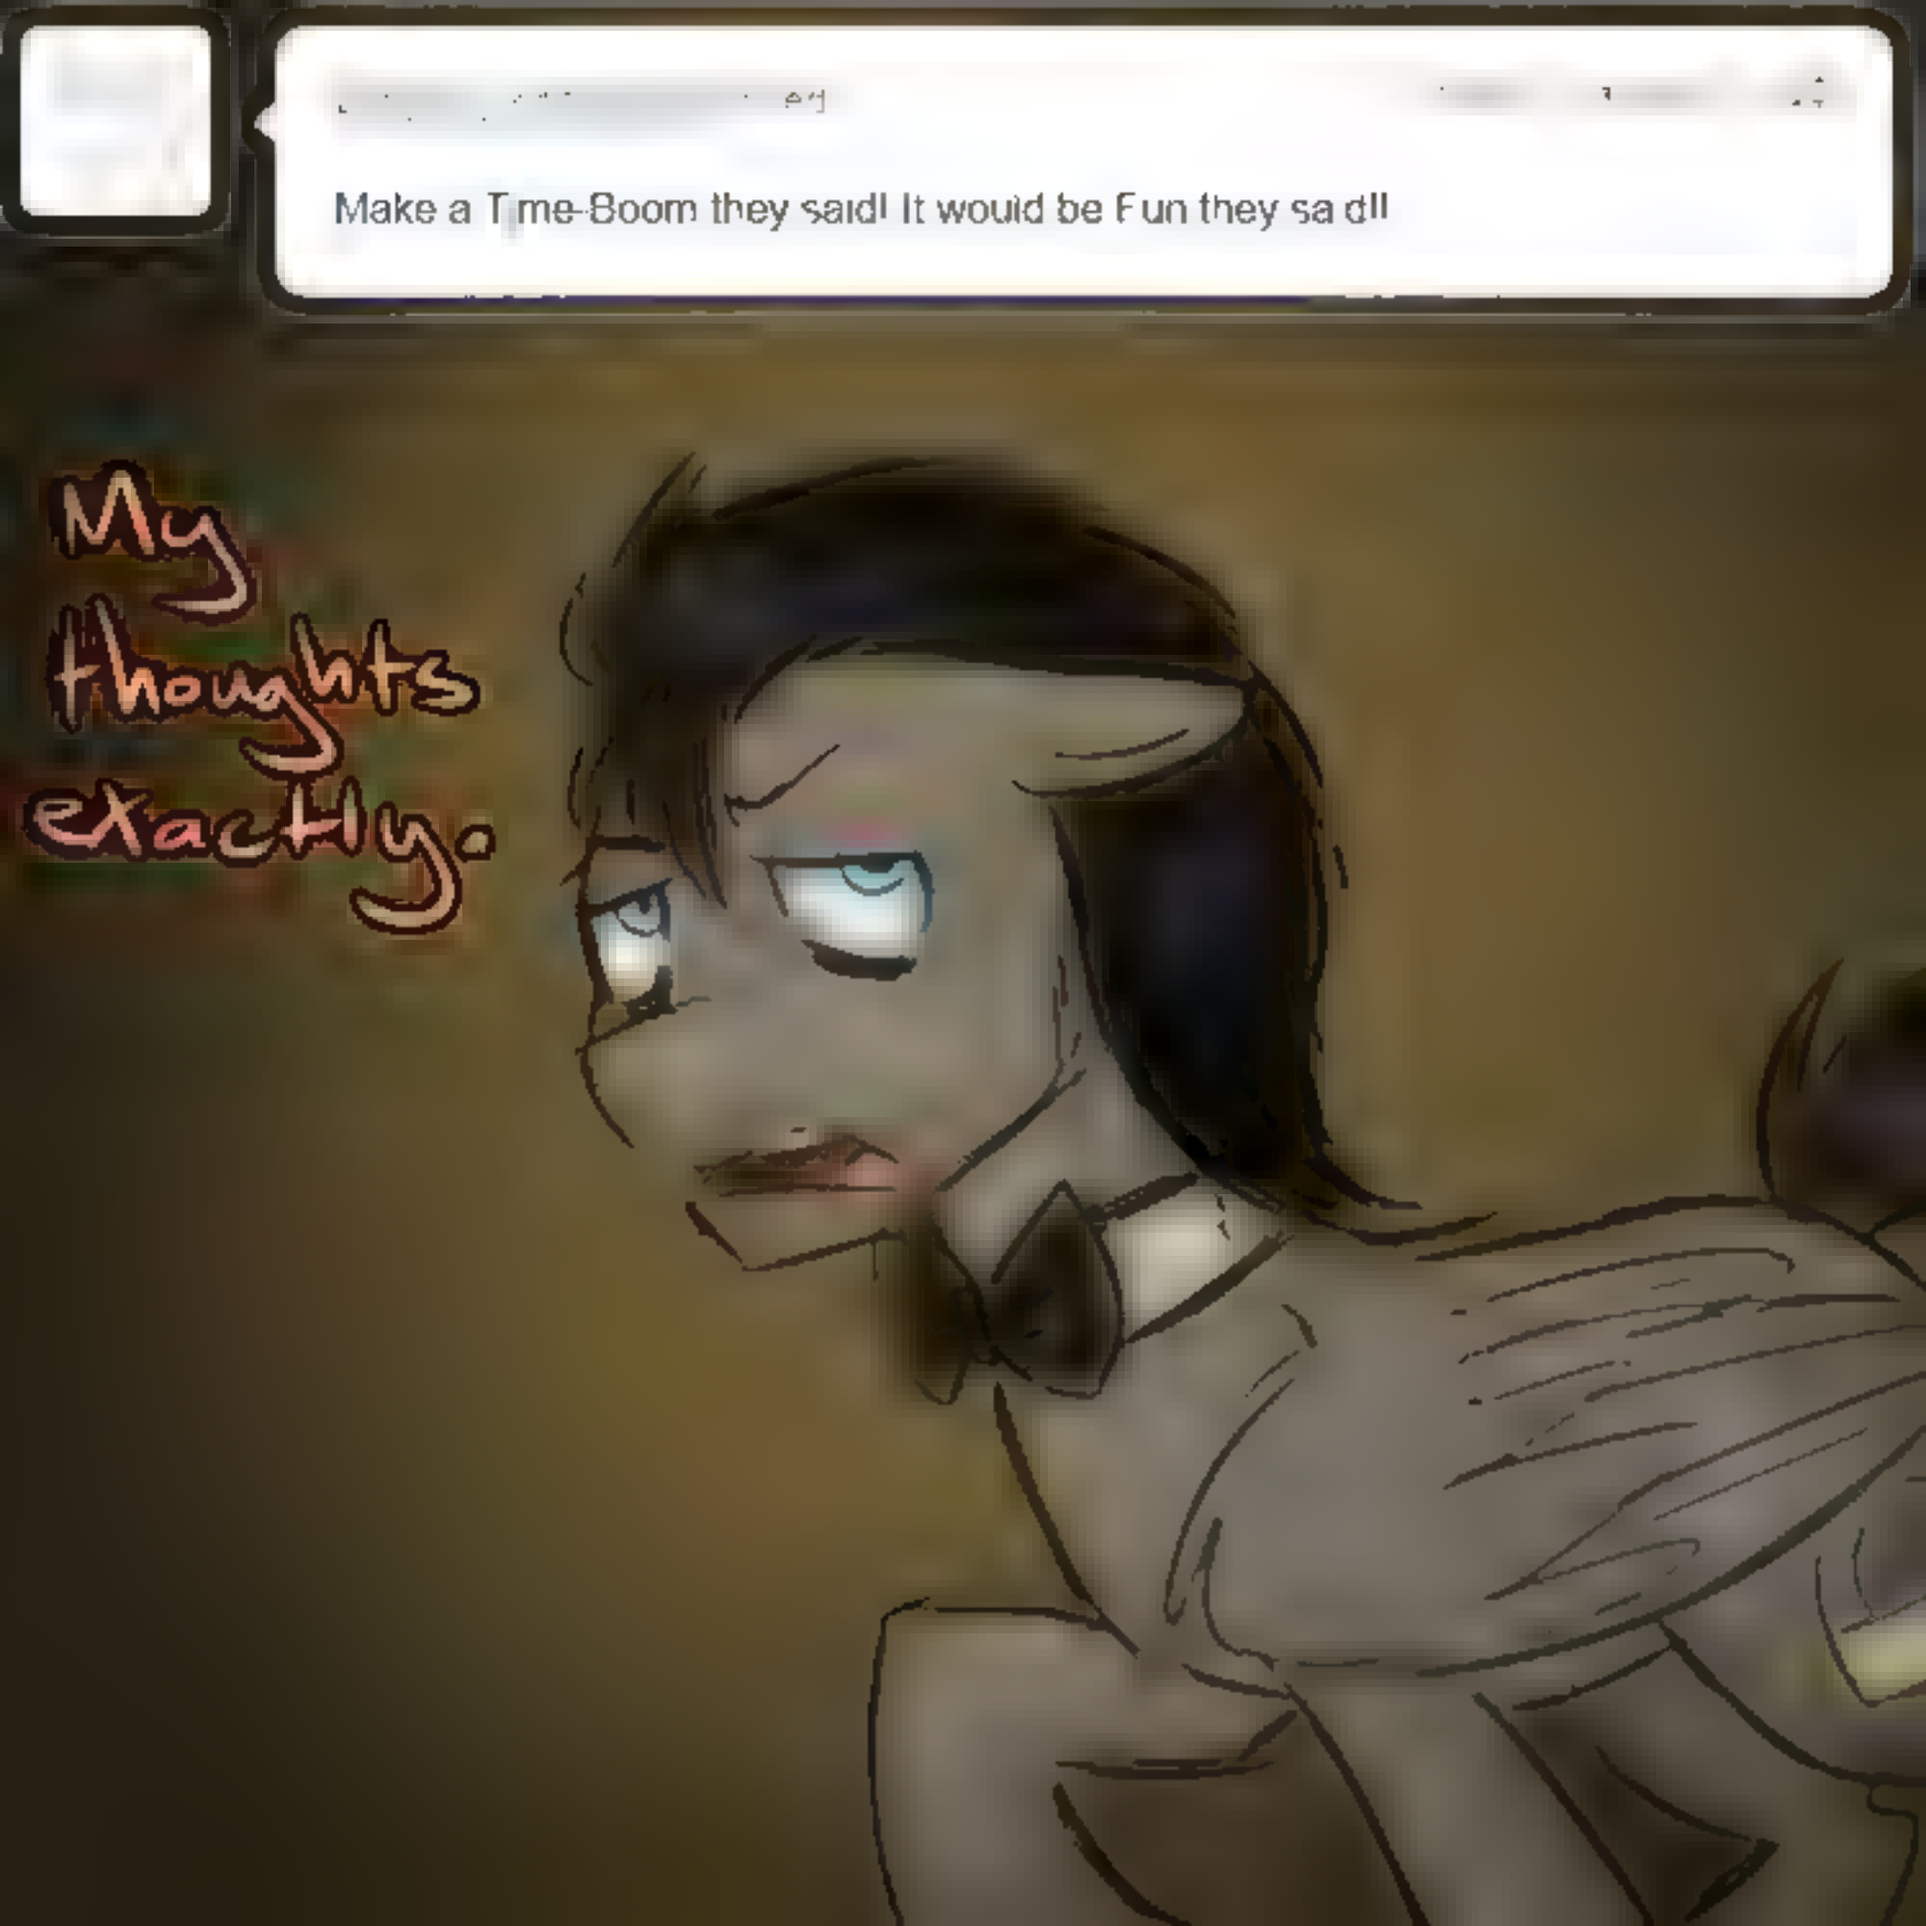
Lets see if you can out do Rainbow Dash and do a Time Boom.

I wonder if you could do a sonic TIMEboom, once you get good enough at flying? Like, it could slow or reverse time or something cool like that



Why at any point did you ever think that would be a "Great Idea?"
I was DRUNK okay?!

Never do things drunk. Ever
Yeah. the universe is MUCH safer when you're drunk off your ass and not caring about anyone but yourself get back to your TARDIS and stop that thing before it turns this d mension inside out!!
Yes, Yes, working on that! I'm sober now, just had to focus!!



Make a Time-Boom they said! It would be Fun they said!!
My thoughts exactly.

Doctor! What the hell did you just do? How does making a Sonic Boom make THAT happen?
Aw Crap Doctor WHAT DID YOU DO? You REALLY screwed up this time haven't you?
Doctor, what did that Timeboom do?!
Okay, okay, yes, minor setback.
Apparently I dragged some interdimensional code with me which resulted in a wormhole ripping through reality.

Oh that does not look good you gonna fix it?

You ARE gonna fix this, right? I can understand staying out of other peop e's problems, but you caused this Black ho e? Time hole Prob lem

Ok HOW DO YOU PLAN TO FIX THAT
WE LOVE PONIES
Well you've gone and cocked that up how are you going to fix it?
Like this!
Using the TARDIS as a counter energy to close the rift!

better close that up b4 something goes in or comes out

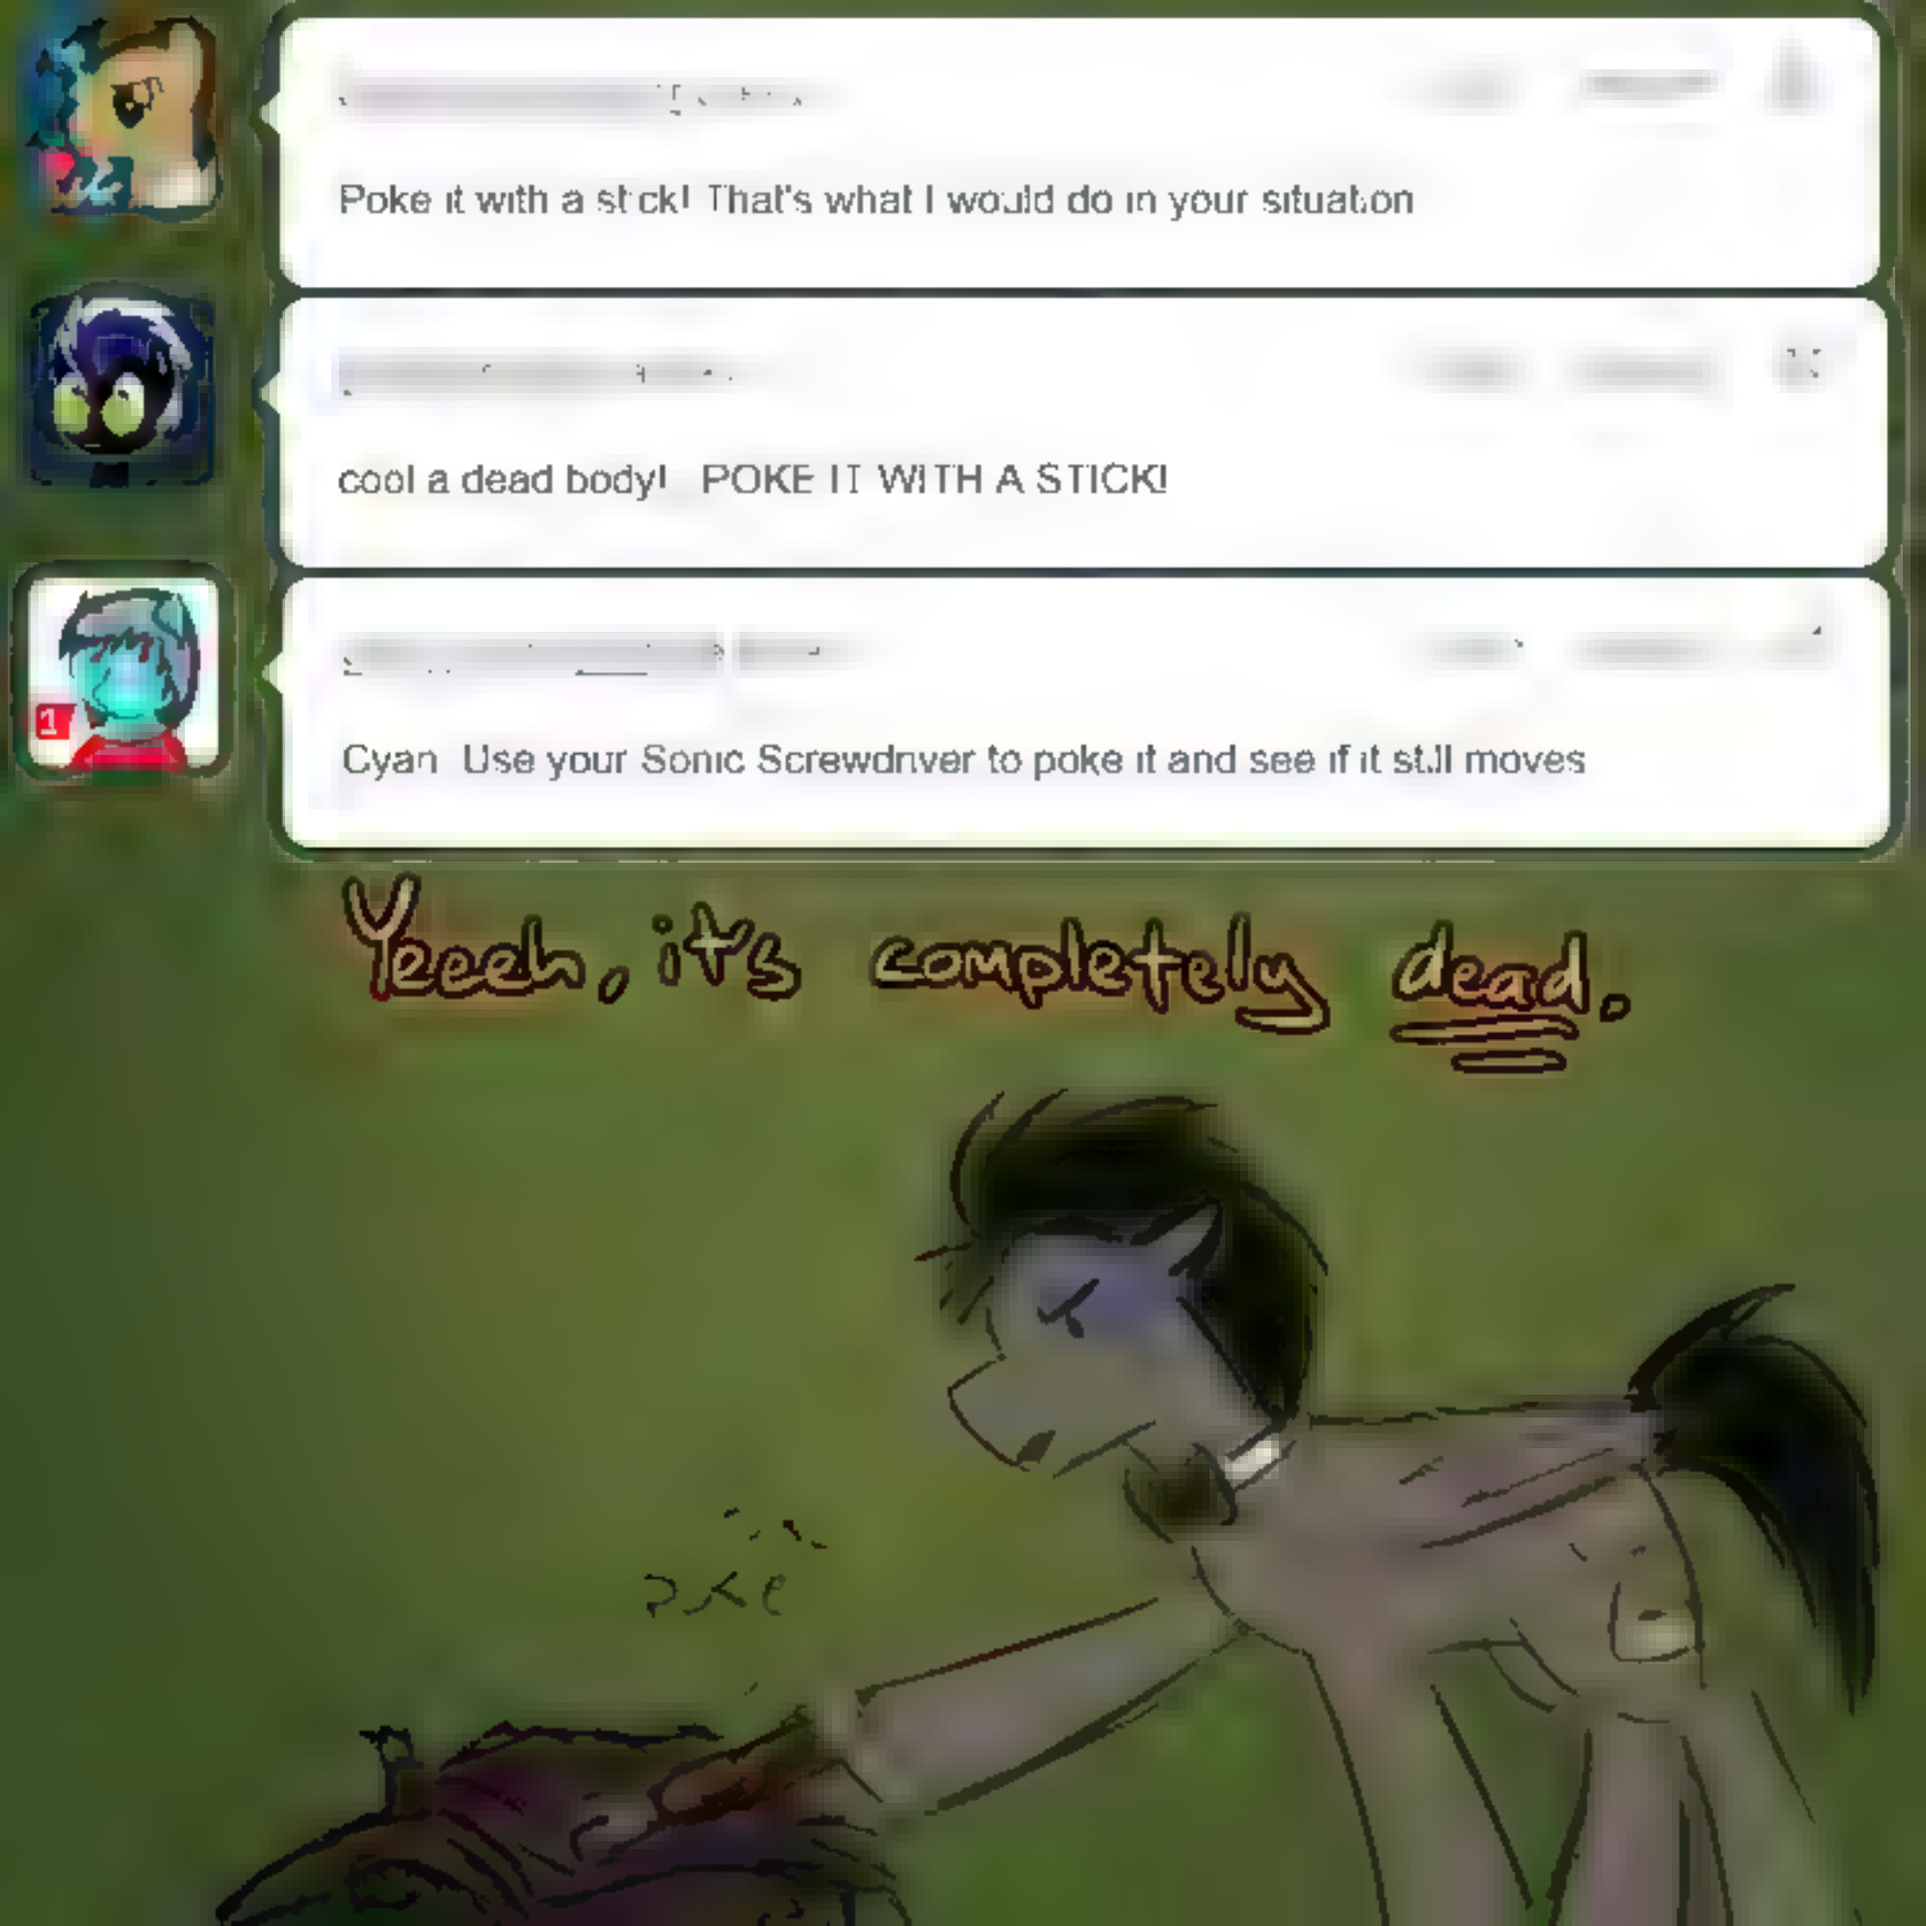
There, see? No more problem.

SHAT!!

What...?

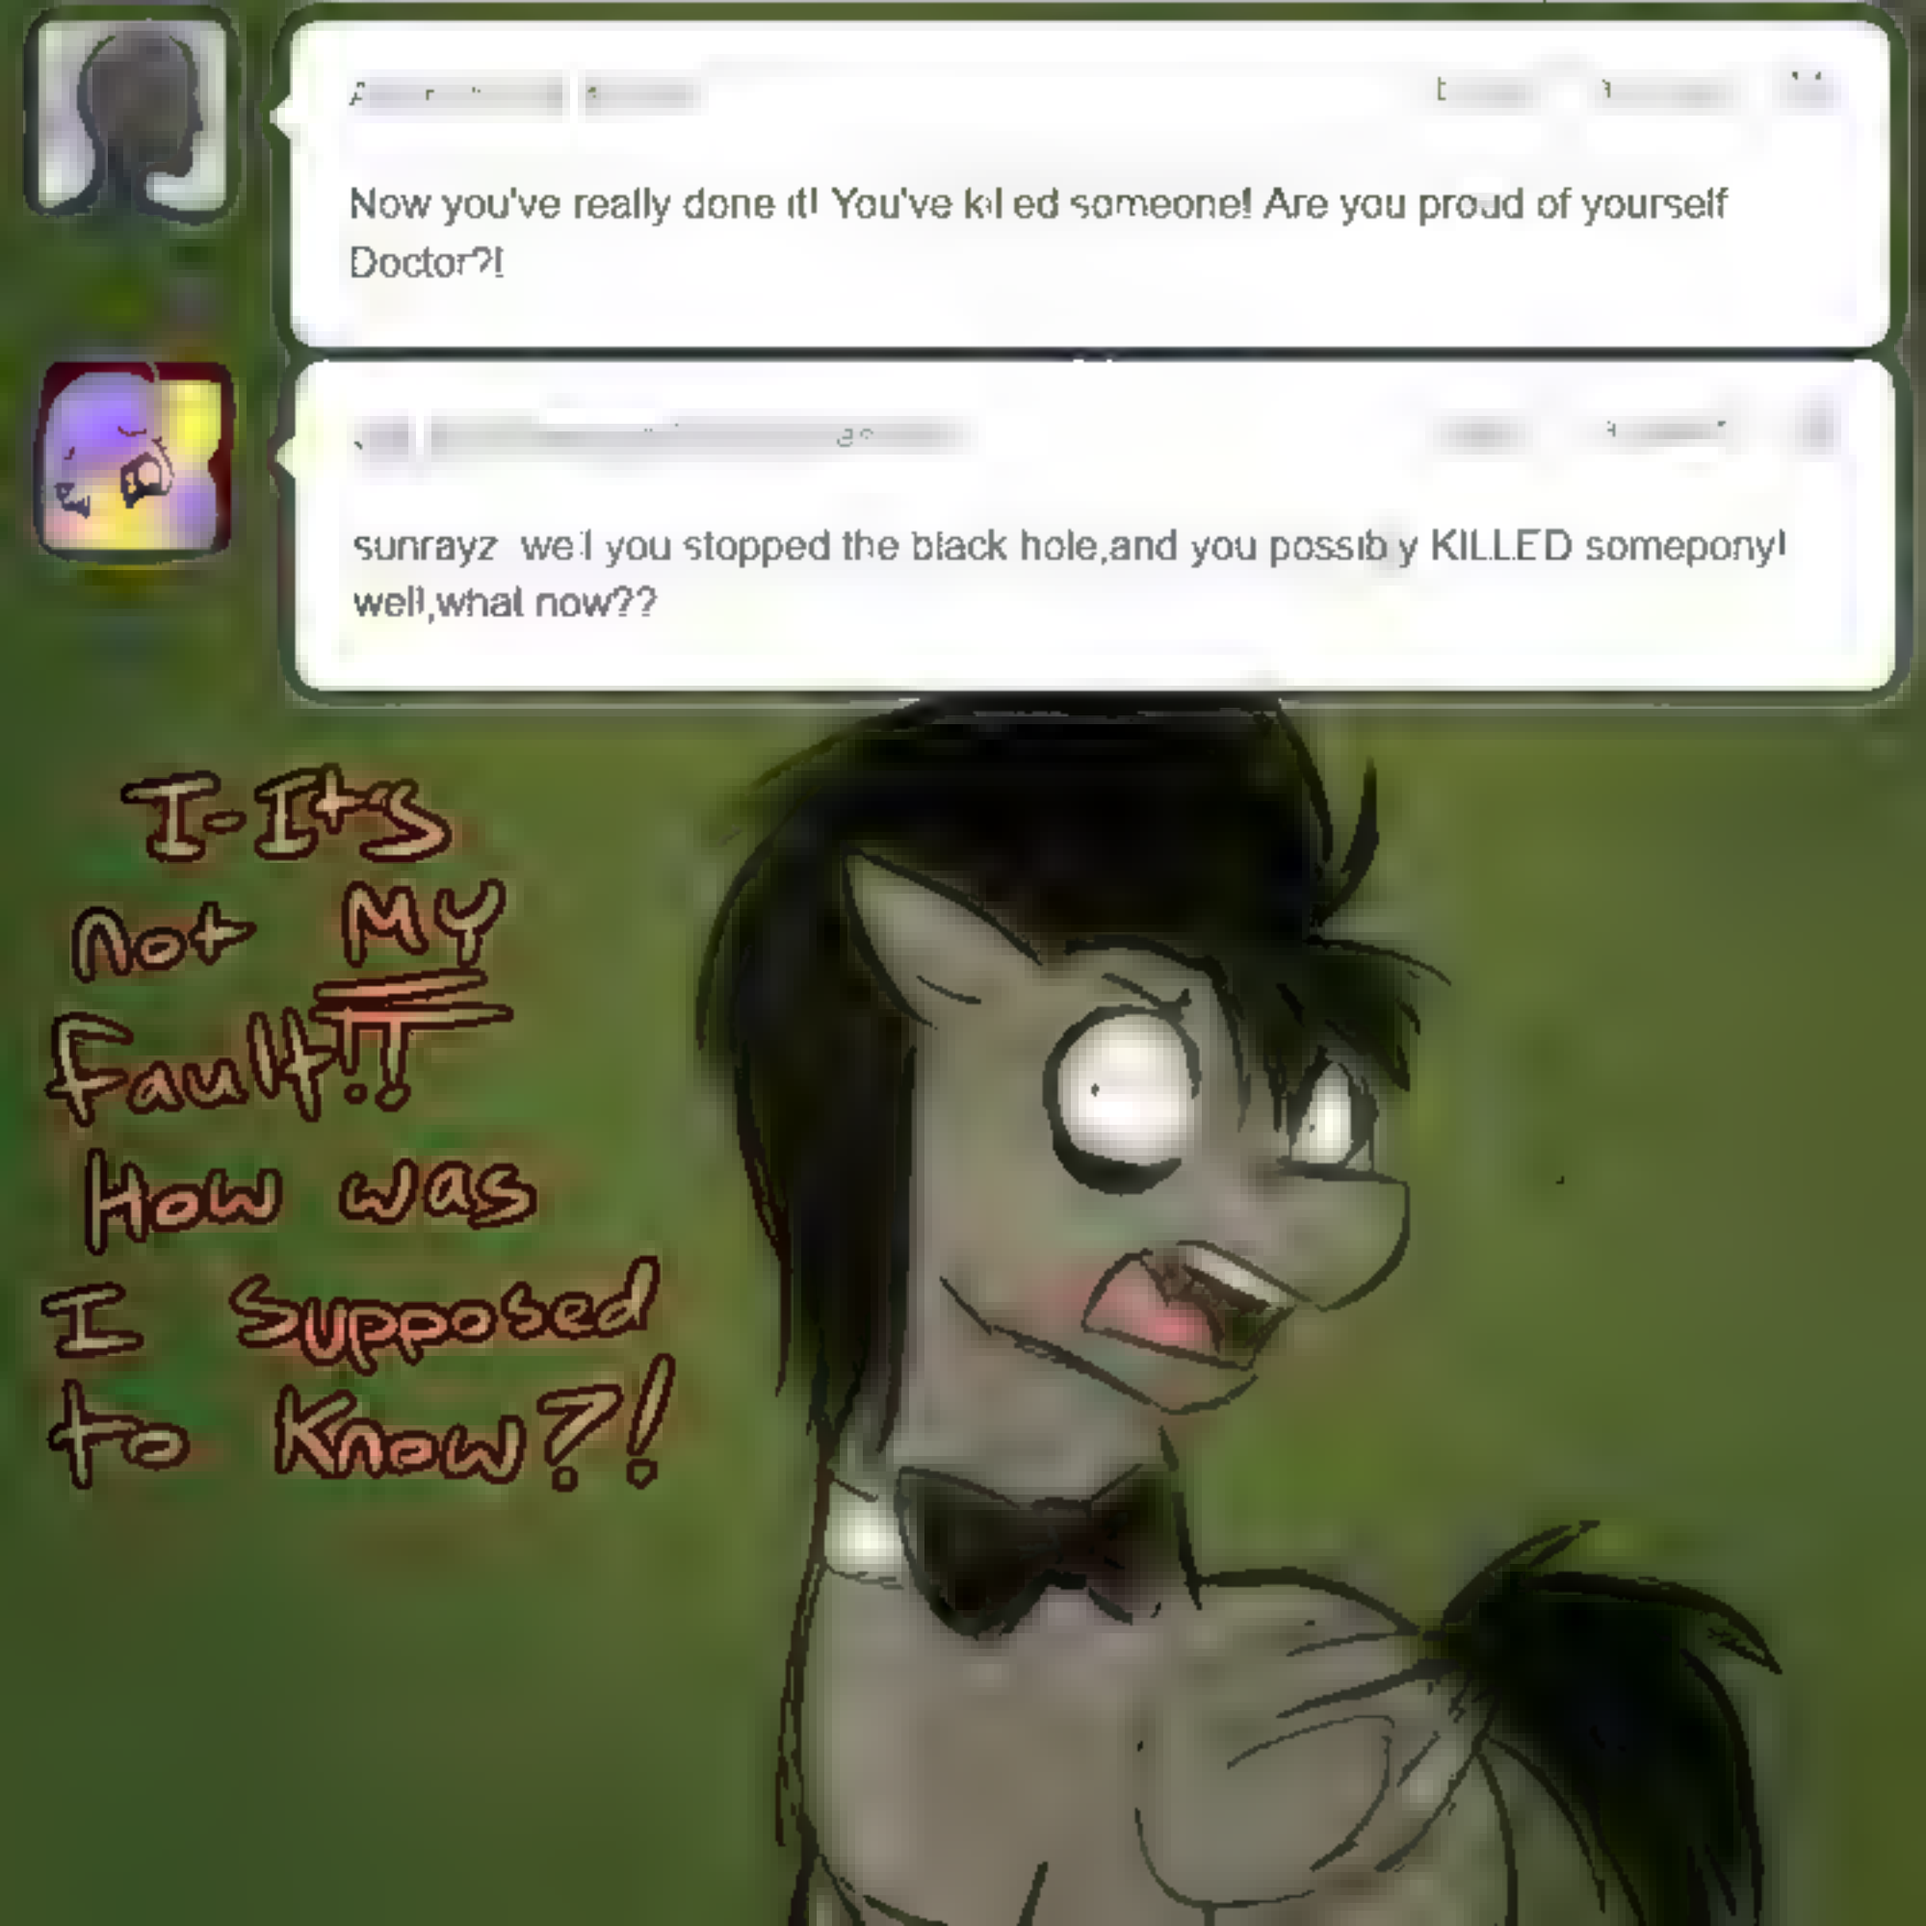
What s that th ng?
It...
Looks
like a
pony
to me...

Clean up on Aisle 2
A very.. Burnt pony.



Poke it with a stick! That's what I would do in your situation
cool a dead body! POKE IT WITH A STICK!
Cyan Use your Sonic Screwdriver to poke it and see if it still moves
Yeeeh, it's completely dead.

So Erm What are the odds of an open casket funeral when the subject in questions pops out of a hole in space-time at what appears to have been terminal velocity? I I swear I saw atmosphere IGNITING on the outer edges
No.
No chance at all.
Ew...



Now you've really done it! You've kil ed someone! Are you proud of yourself Doctor?!
sunrayz we:l you stopped the black hole,and you possib y KILLED someponyl well,what now??
I-It's not MY fault!!
How was I Supposed to Know?!

Look on the bright side. Even if it is dead you could just loot the body
What? No, it's gross! And it's...

Look, another mess for you to clean up. You're the reason it's dead, so dignify it with a proper burial
Augh, I can't... It's... giving me a headache...

O-owww- owww!!
What the hell--

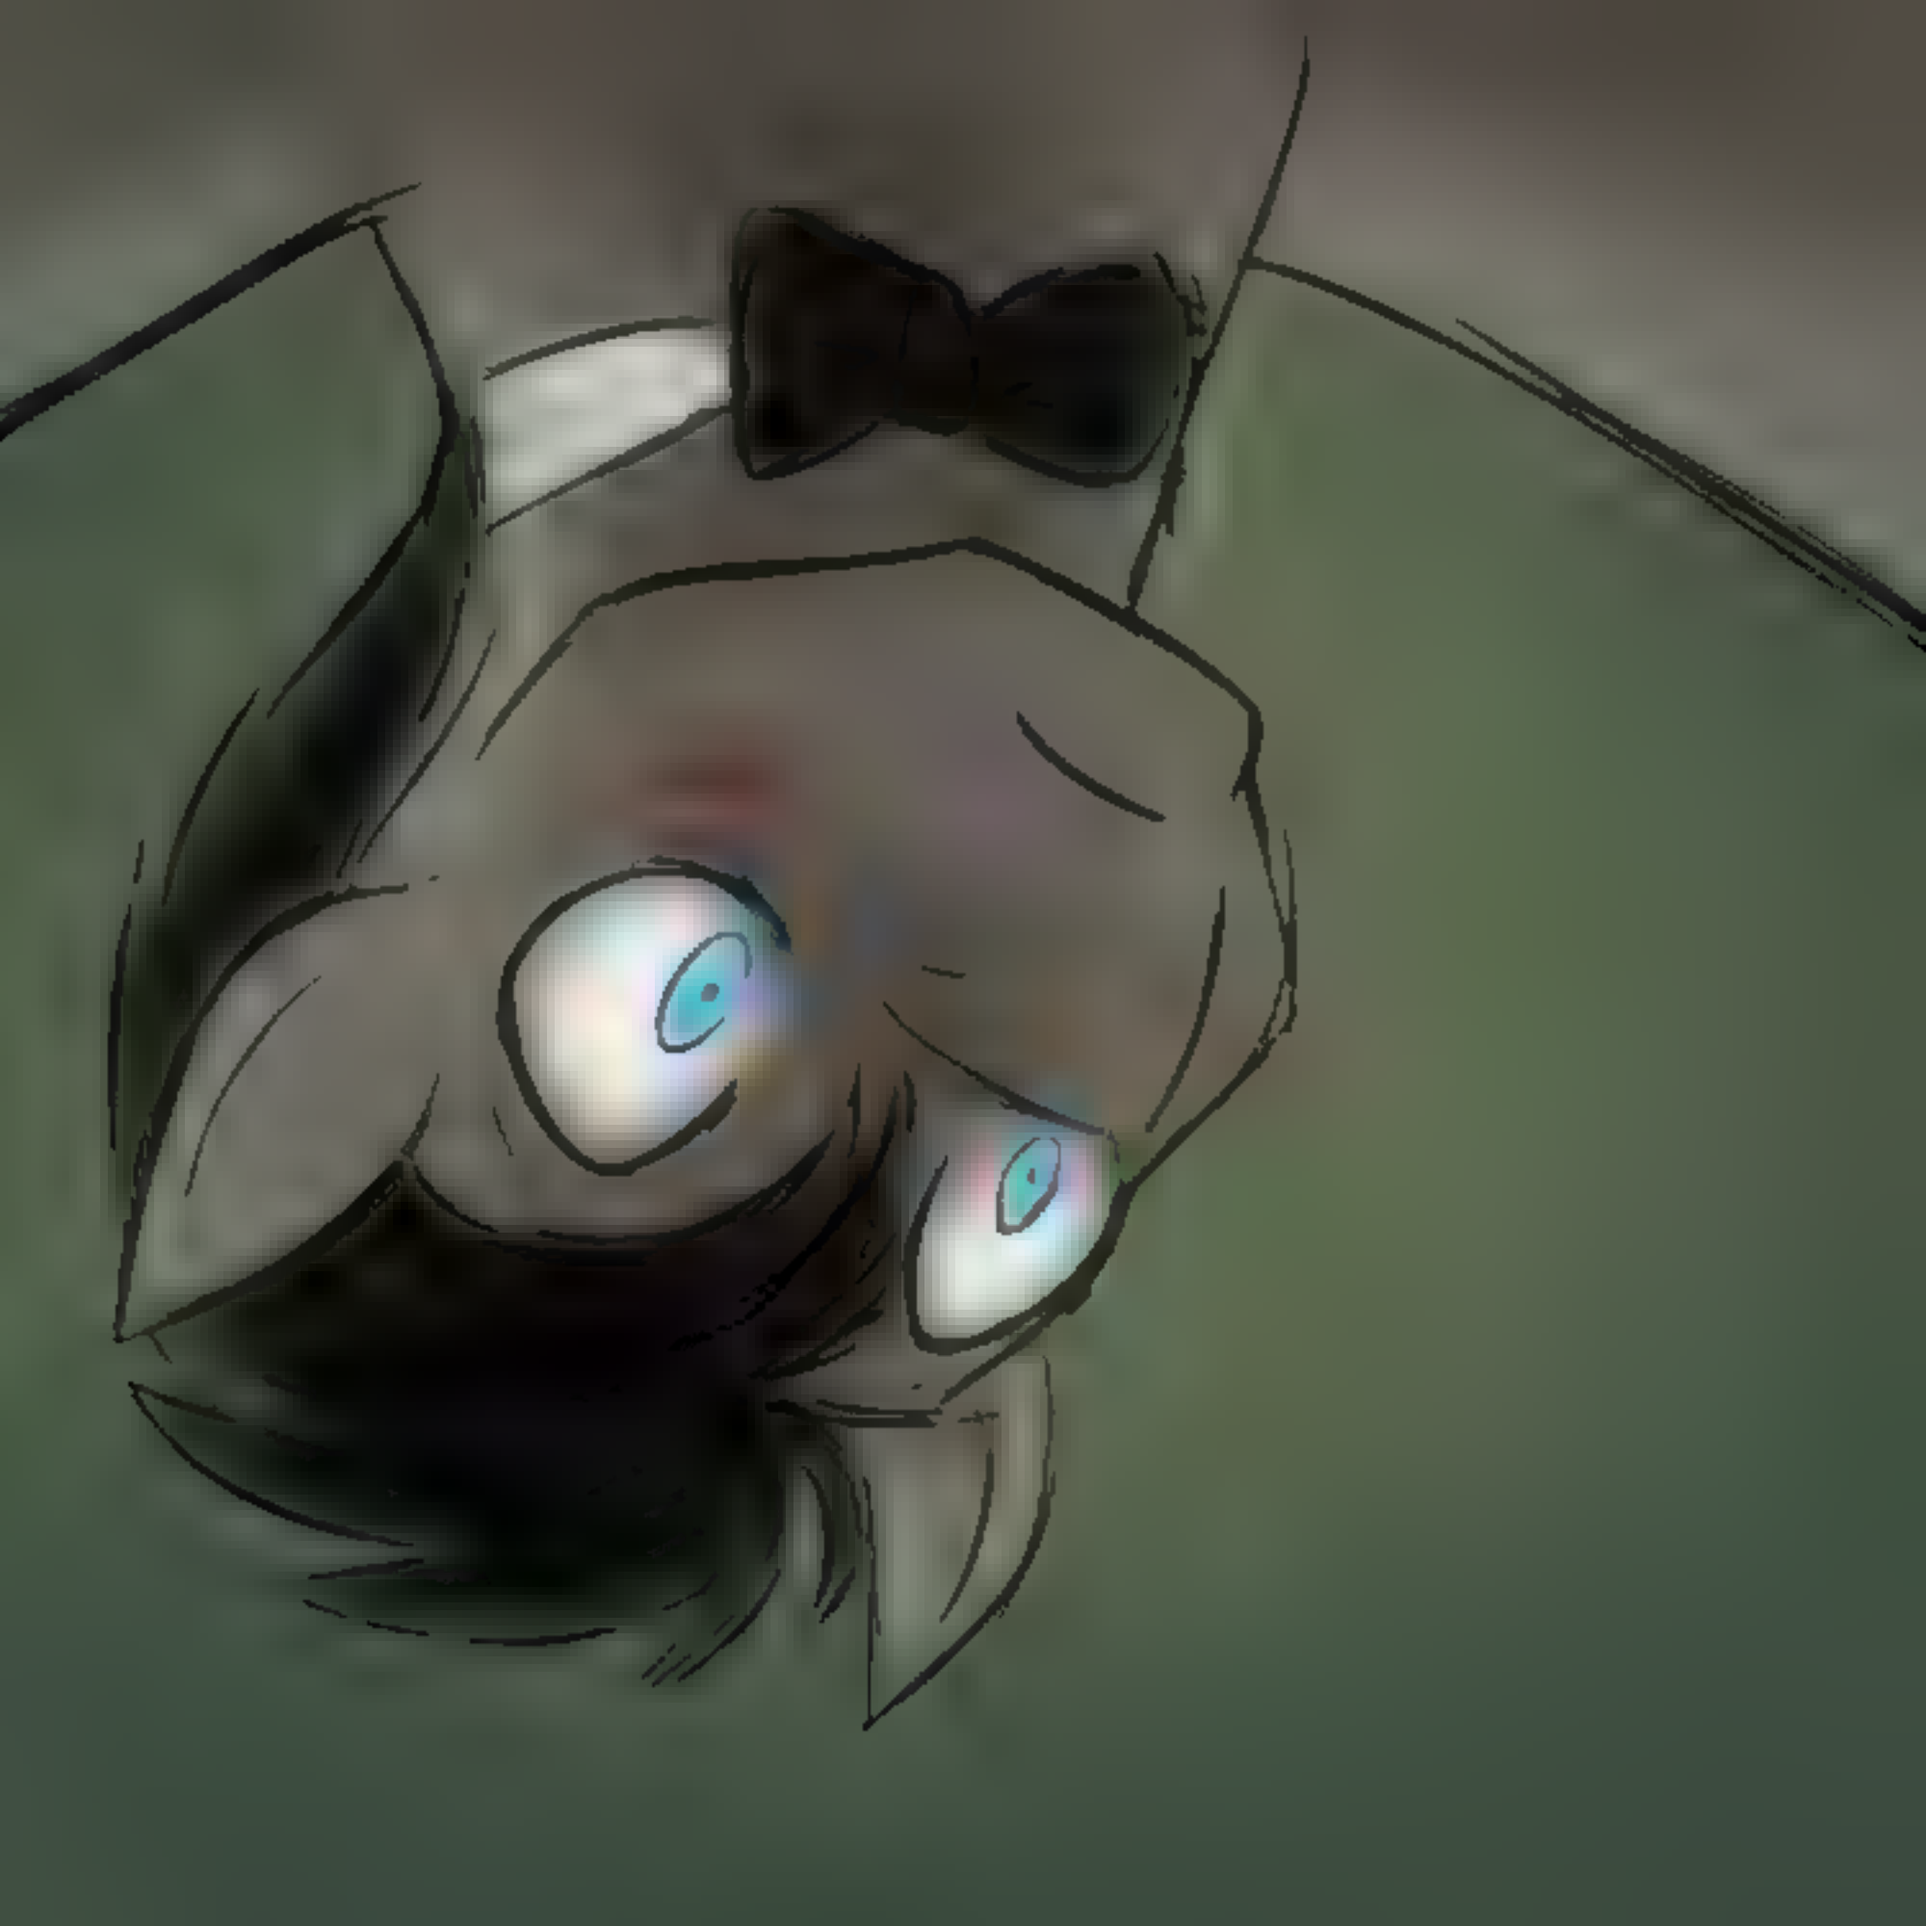
OH GOD IT'S NOT DEAD! WHAT'S GOING ON!?
Girly Scream

There's no way, it was dead,
burnt to a crisp-
Impossible-!!

HOW ARE YOU ALIVE?!?!

Huh.
A talking horse.
That's new.

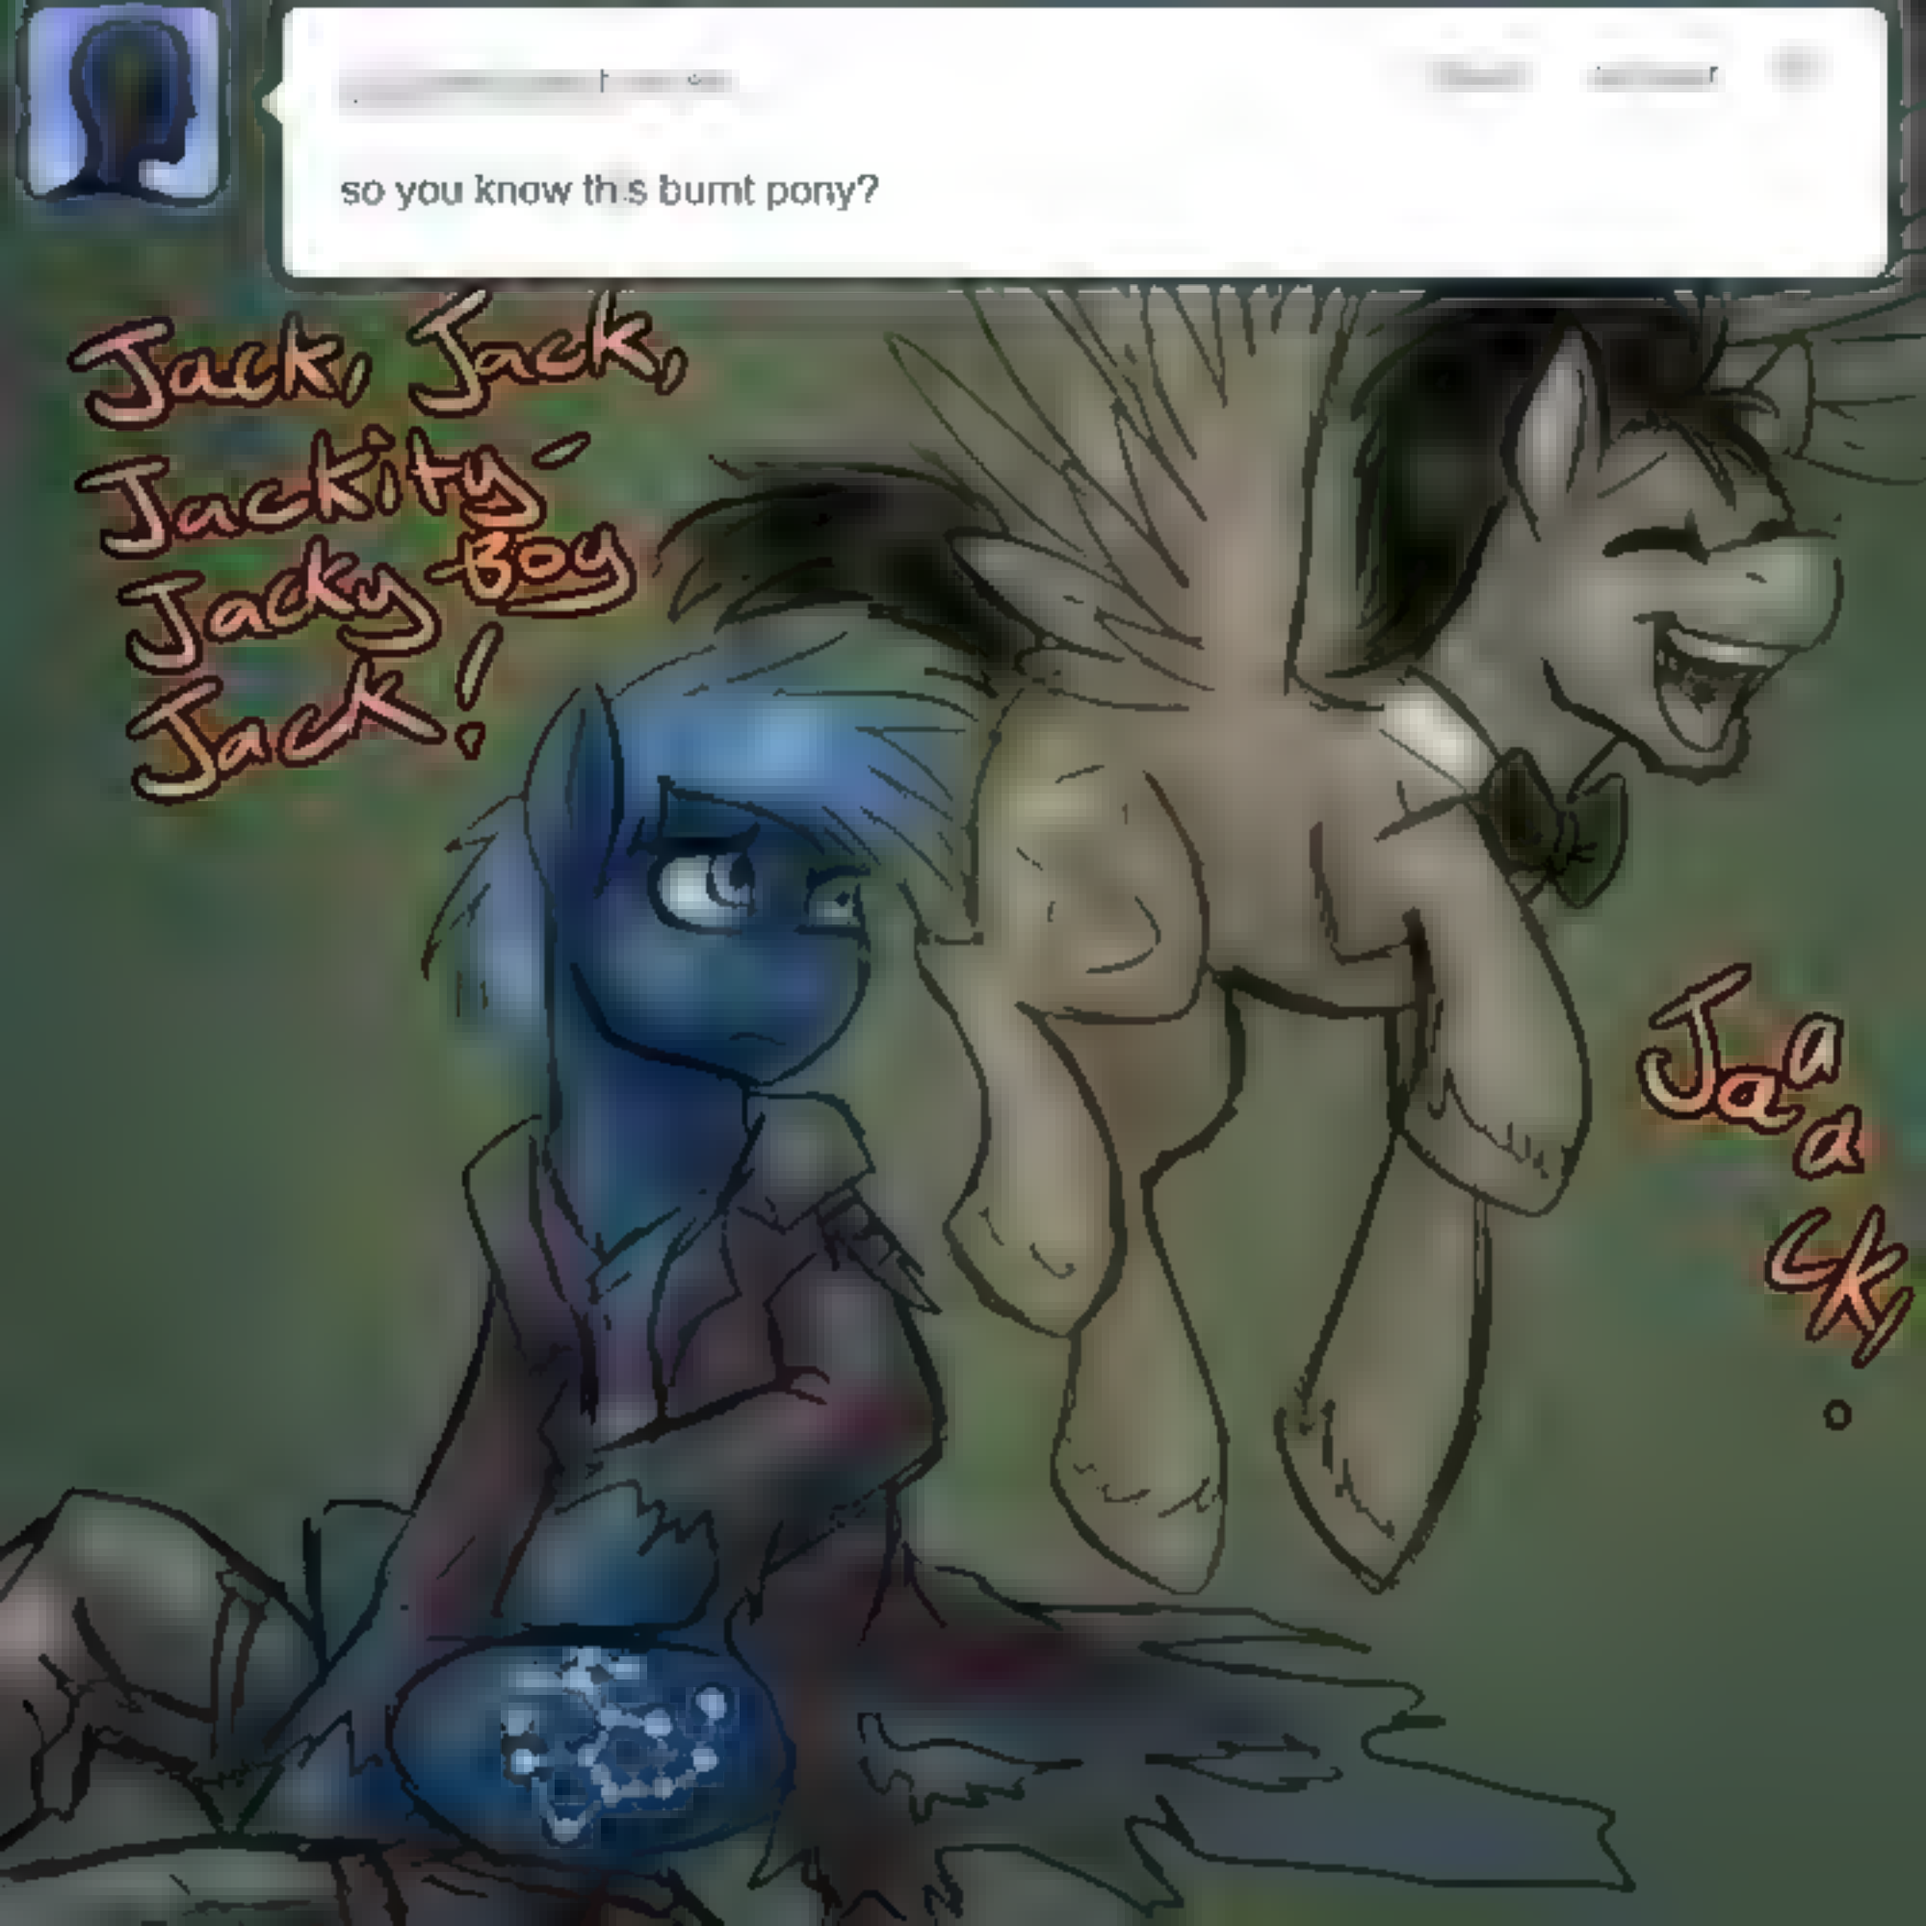
Hi
there~♡



...Jack...?

Oh,
have we
met...?

hey doc looks like you have a friend, i guess the time boom wasnt all that bad after all huh
It's you! It's really you!



so you know th s burnt pony?
Jack, Jack, Jackity Jacky Boy Jack!
Jaaack.

W wait, whose Jack?
wait doc. who's Jack?
Who the he l is that?
Captain Jack Harkness,
a former con man
and time agent from
the 51st Century! He's
traveled with me a few times,
oh he was brilliant!

He became a member of Torchwood, an institute designed to protect Earth from alien threat. "If it's alien, it's ours" was their motto. Jack made a lot of changes to Torchwood and created his own branch after the largest one was destroyed.

Who the Hay Is Jack And Why Is He Healing
Long story short, Jack is a fixed point in time.
He was brought back to life when it shouldn't have been possible,
and now he can't die. Because he's a suspended
fixed point, it hurts my head to look at him.

It's Jack! Give him a hug
Right now... He's a headache worth having...
woahkay I know you're excited Mr. Horse but seriously, who are you?

He doesn't recognize you? D Does that mean he got amnesia when he crossed through that wormhole?
Jack, it's me! TARDIS, Space, time!

Doc...?

What the hell
was in My hypervodka?

Oh great Doctor, if he's a being from another universe (like you) we're gonna have to teach him EVERYTHING
Okay. okay. Jack, listen.. You're in another Universe and... Things are Very different in this universe.

Gee, I couldn't tell from the giant horseshoe on your face.
HONK

oi don't knock the nose!
Continue~♡

Well I'm... Not the only one Who's different...
You uh, may have a... few... changes yourself.

. . . Ah. . .
Yeah, I gathered that. . .

Oh well, not any worse than the time I was pregnant. Or, you know, made immortal.

You're... Taking this a lot easier than I expected...

Time agent and Torchwood. You get used to things.

Are you going to help Jack? He's obviously new to this world you m ght wanna help him
Ah- Let me help you up..!

Don't worry about it, isn't the first time I've had to walk on fours

Oh, you redecorated!
Like you wouldn't believe! Oh I have so much to show you!

Here, let me take your coat!
You don't have to ask me twice.

Do you suppose there's a place Jack can get a new outfit?
We'll get you a new coat. I'm sure the TARDIS can come up with something.

Oh, Speaking of the TARDIS, there's someone I want you to meet!
. . .

I went to the end of a universe to get rid of it once and I can't even escape when in another universe? Don't let that back inside me again
This is Ananta, isn't she gorgeous?
Can't hear her

Oh, don't give him that look, Ananta! I know he's not supposed to exist but that's no reason to be rude.

Uh...
Yeah...

Well Doctor Why don't you tell him what you've been up to here Beating up Mares, Getting Drunk, Running away like a coward creating a wormwhole that almost destroyed the universe I'm sure he would love to hear about that
Shut up! I've been doing a lot of good things! Don't be so dramatic!

JACK VISION

H-Hey! Look, none of that is important right now, so will you just give Me and Jack a Moment?!
TALKING TO HIM IN HER
HIS

The hell. ?

Doctor, are you feeling alr-

So that's the infamous Jack Harkness? I thought his cutie mark would be whips and chains
Good Point... Hey, Jack, do you have any reason you might feel connected to the Constellation Orion?
Eh?

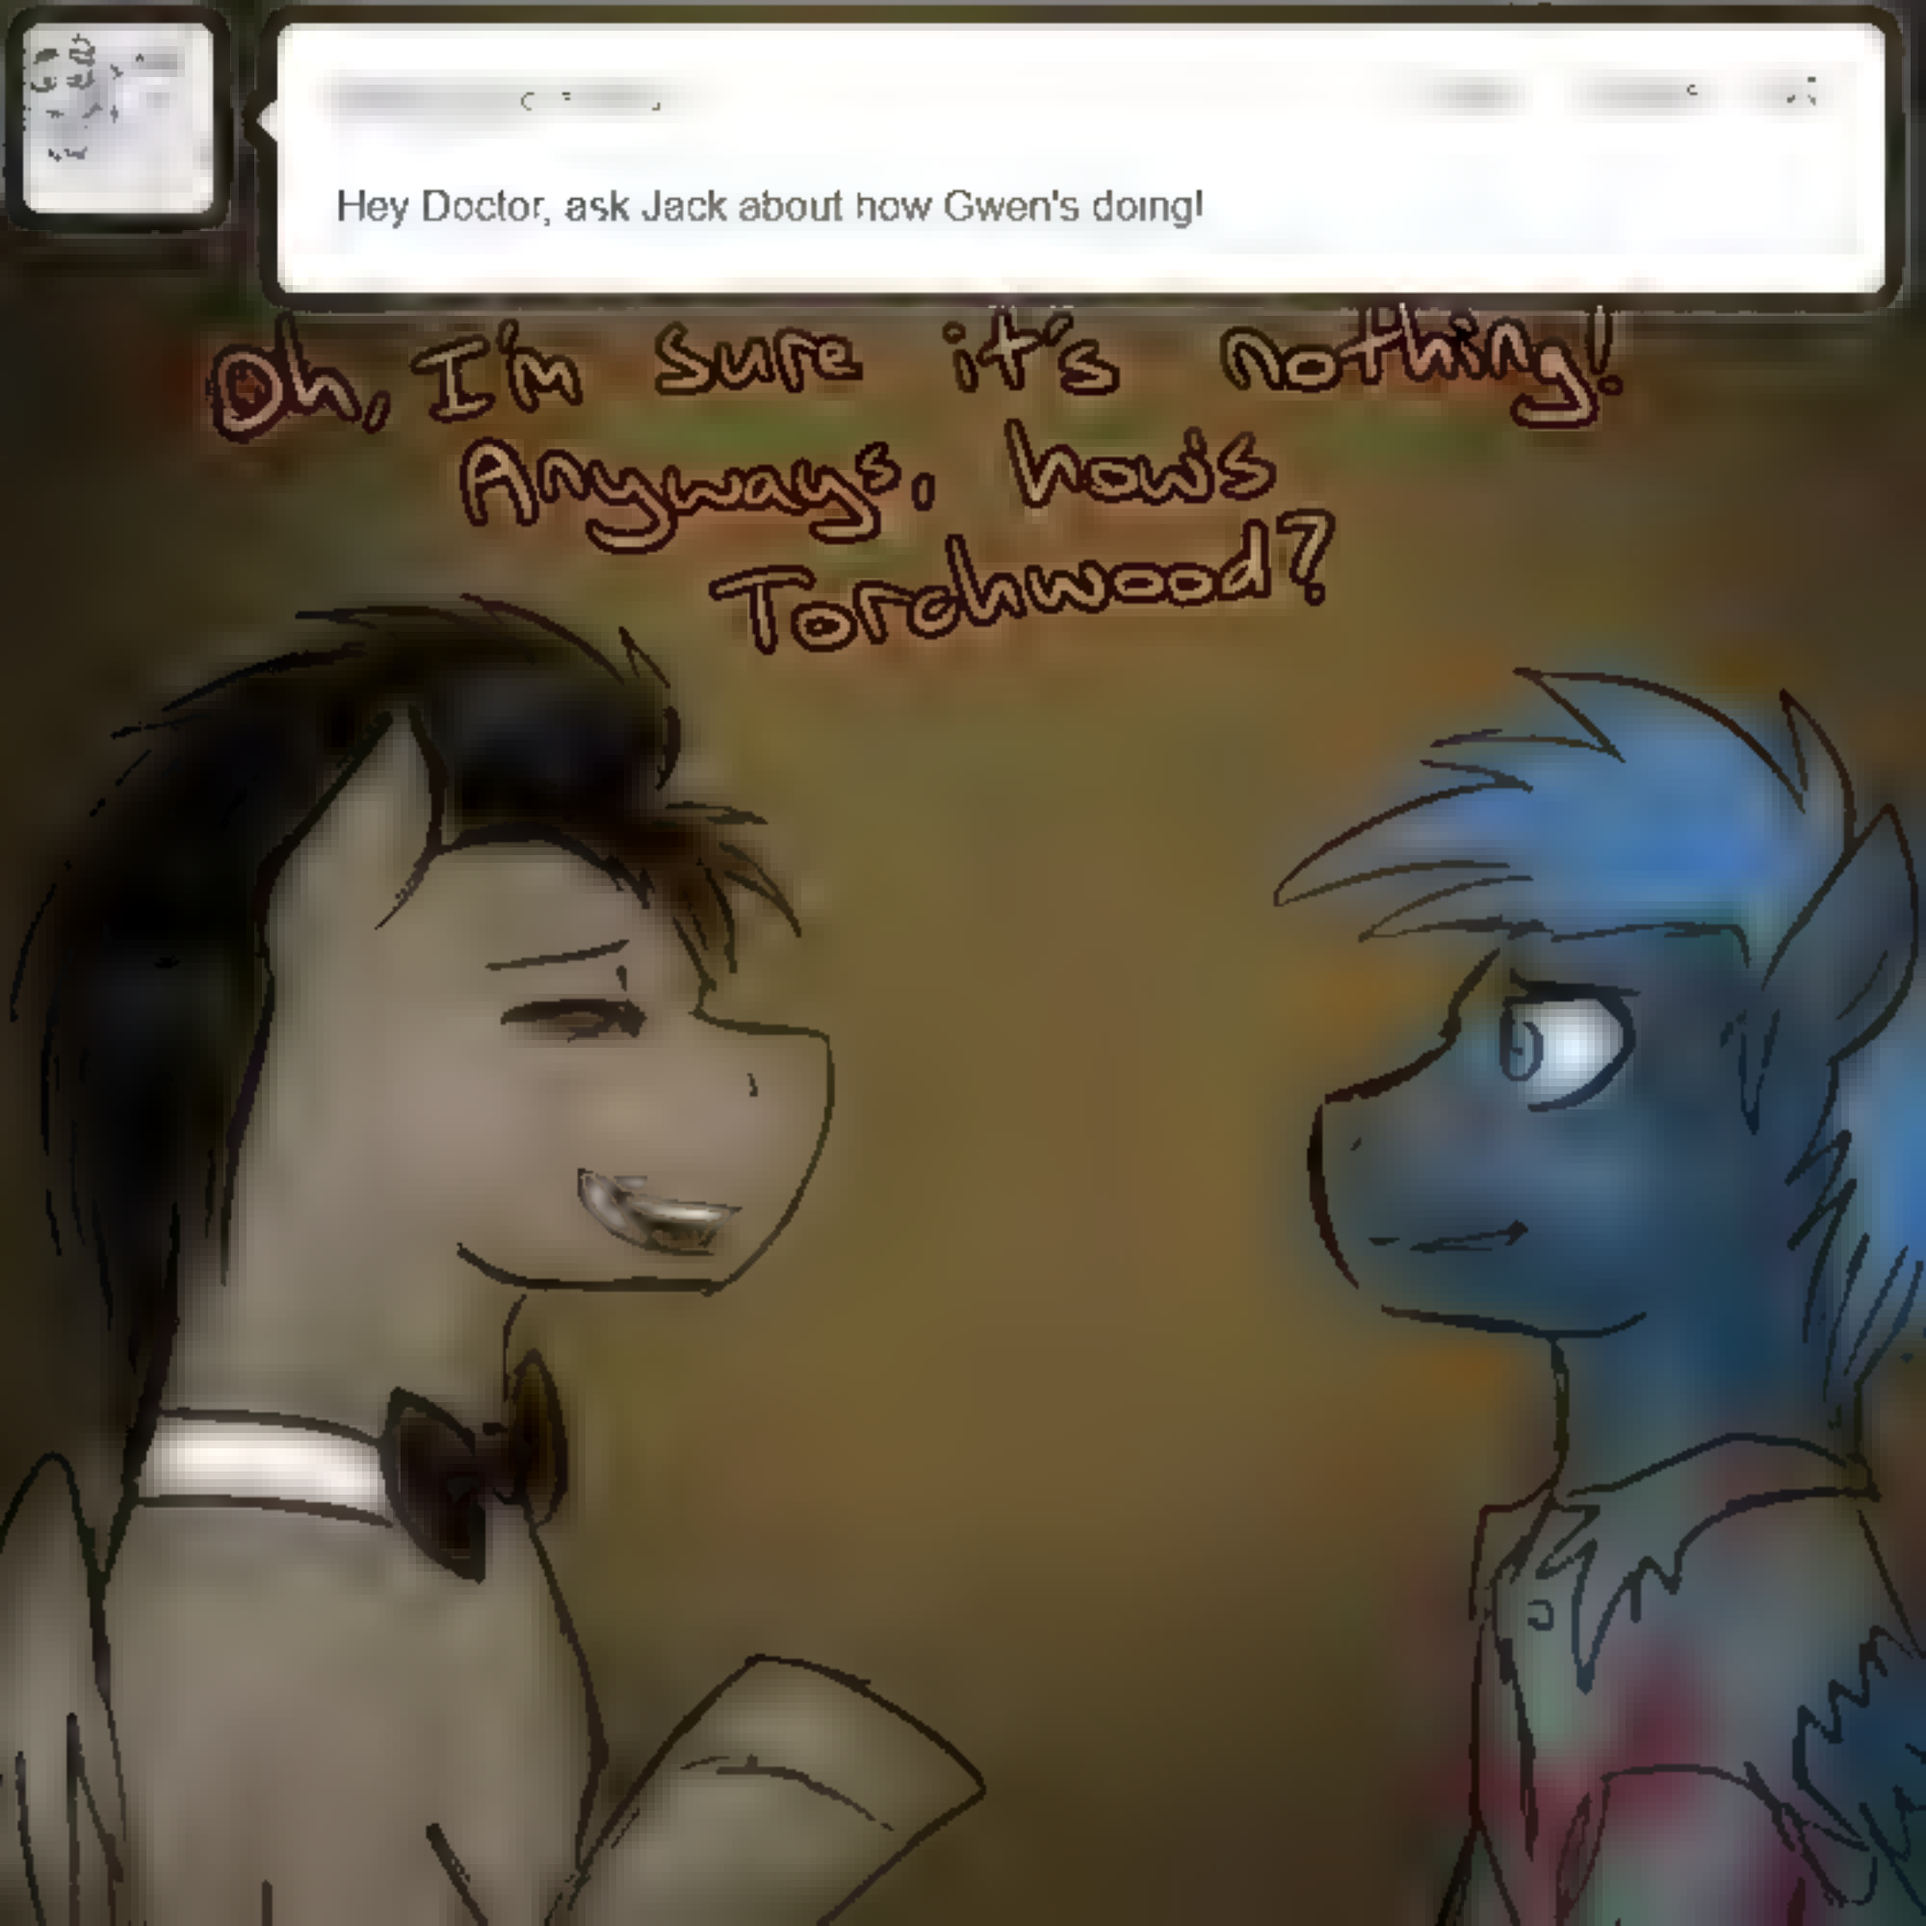
Well, it's a hunter with great aim and everyone talks about his belt.
Well there you go.. That mark on your rump represents your talent.

Oh, now it makes sense. I was wondering why you decided to get a tattoo on your rear...
Nice view, by the way.
Stop that.

So uh, this is probably a stupid question Doctor, but how did Jack get from there to here?
A-Anyways, I know you fell through the dimensional rip I opened, but how did you fall in, anyways?

Well I picked up a Dalek Signal. That didn't seem right. So I followed it and... The next thing I knew, I was here. I think I died at least 37 times on the way, it hurt like hell...

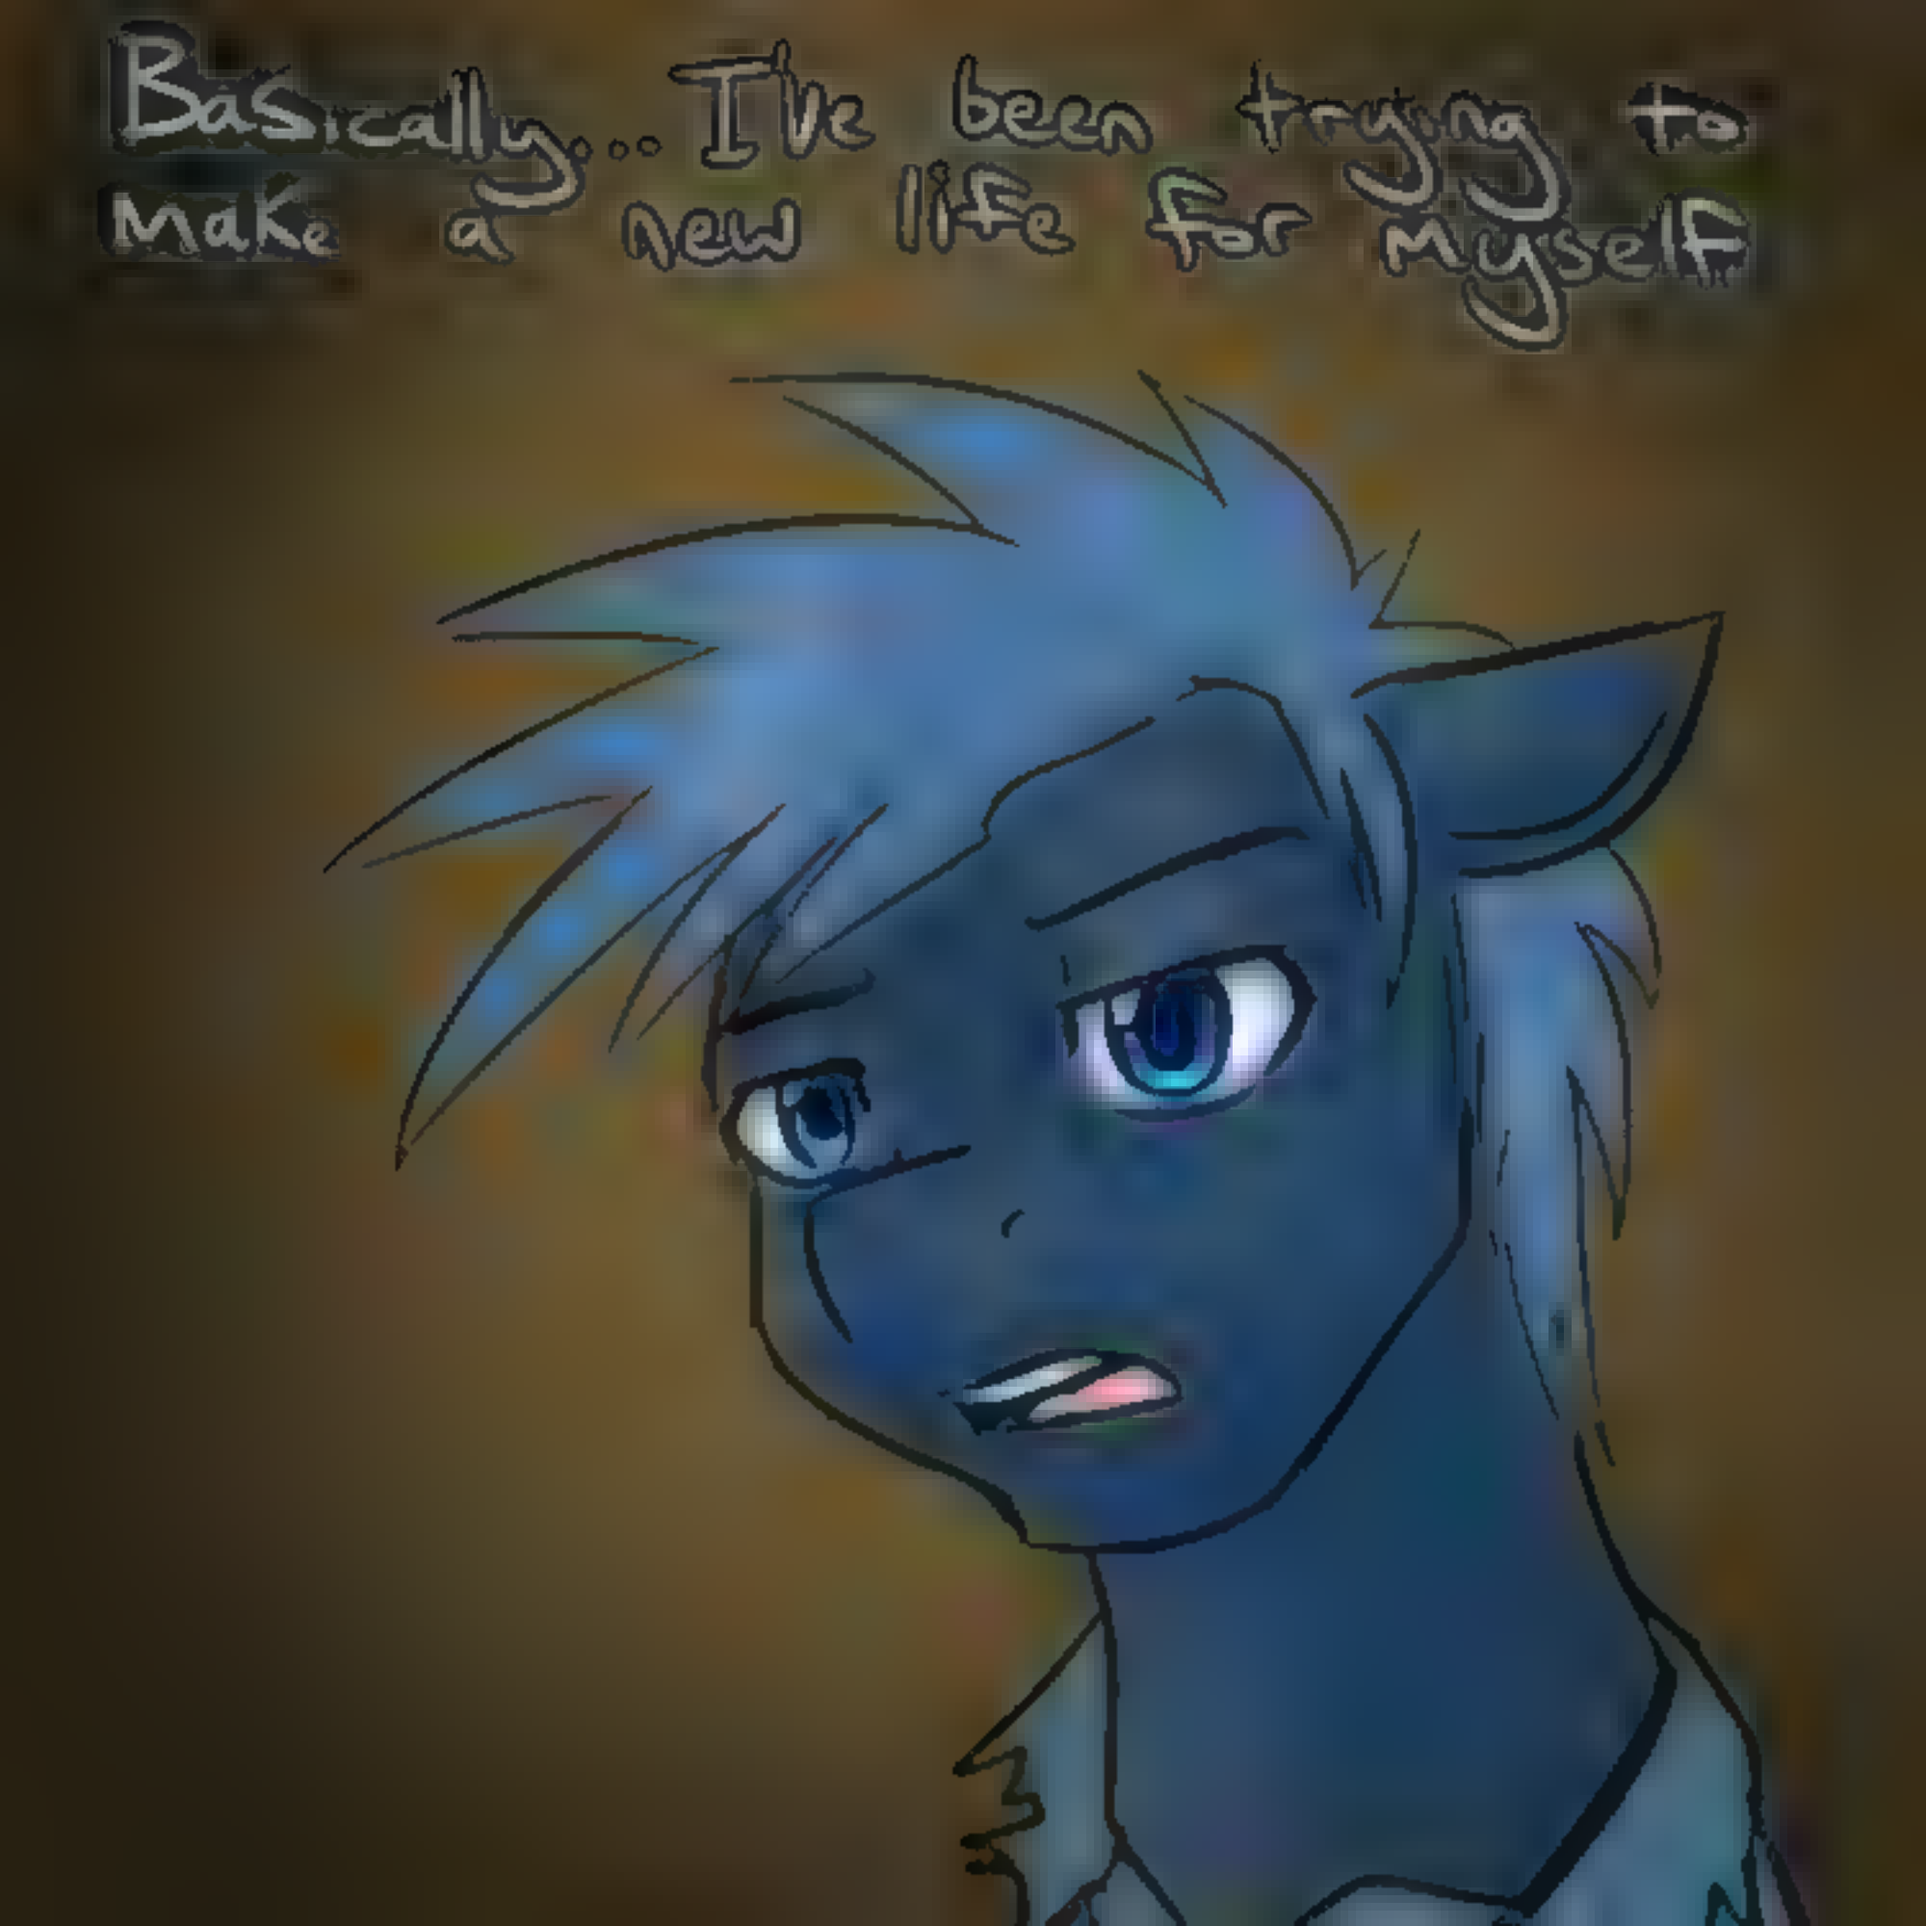
Saw some ships come through the rift looked Dalek in shape you should take a look
Hey Doctor are you sure that jack was the only thing to come out of that wormhole?
Daleks...? That's impossible...



Hey Doctor, ask Jack about how Gwen's doing!
Oh, I'm sure it's nothing! Anyways, how's Torchwood?

... I dismantled them. There's no more Torchwood.

What?!
Trust me, it was for the better. When I saw you last, it was at that bar, remember?
... I'd already left earth far behind.

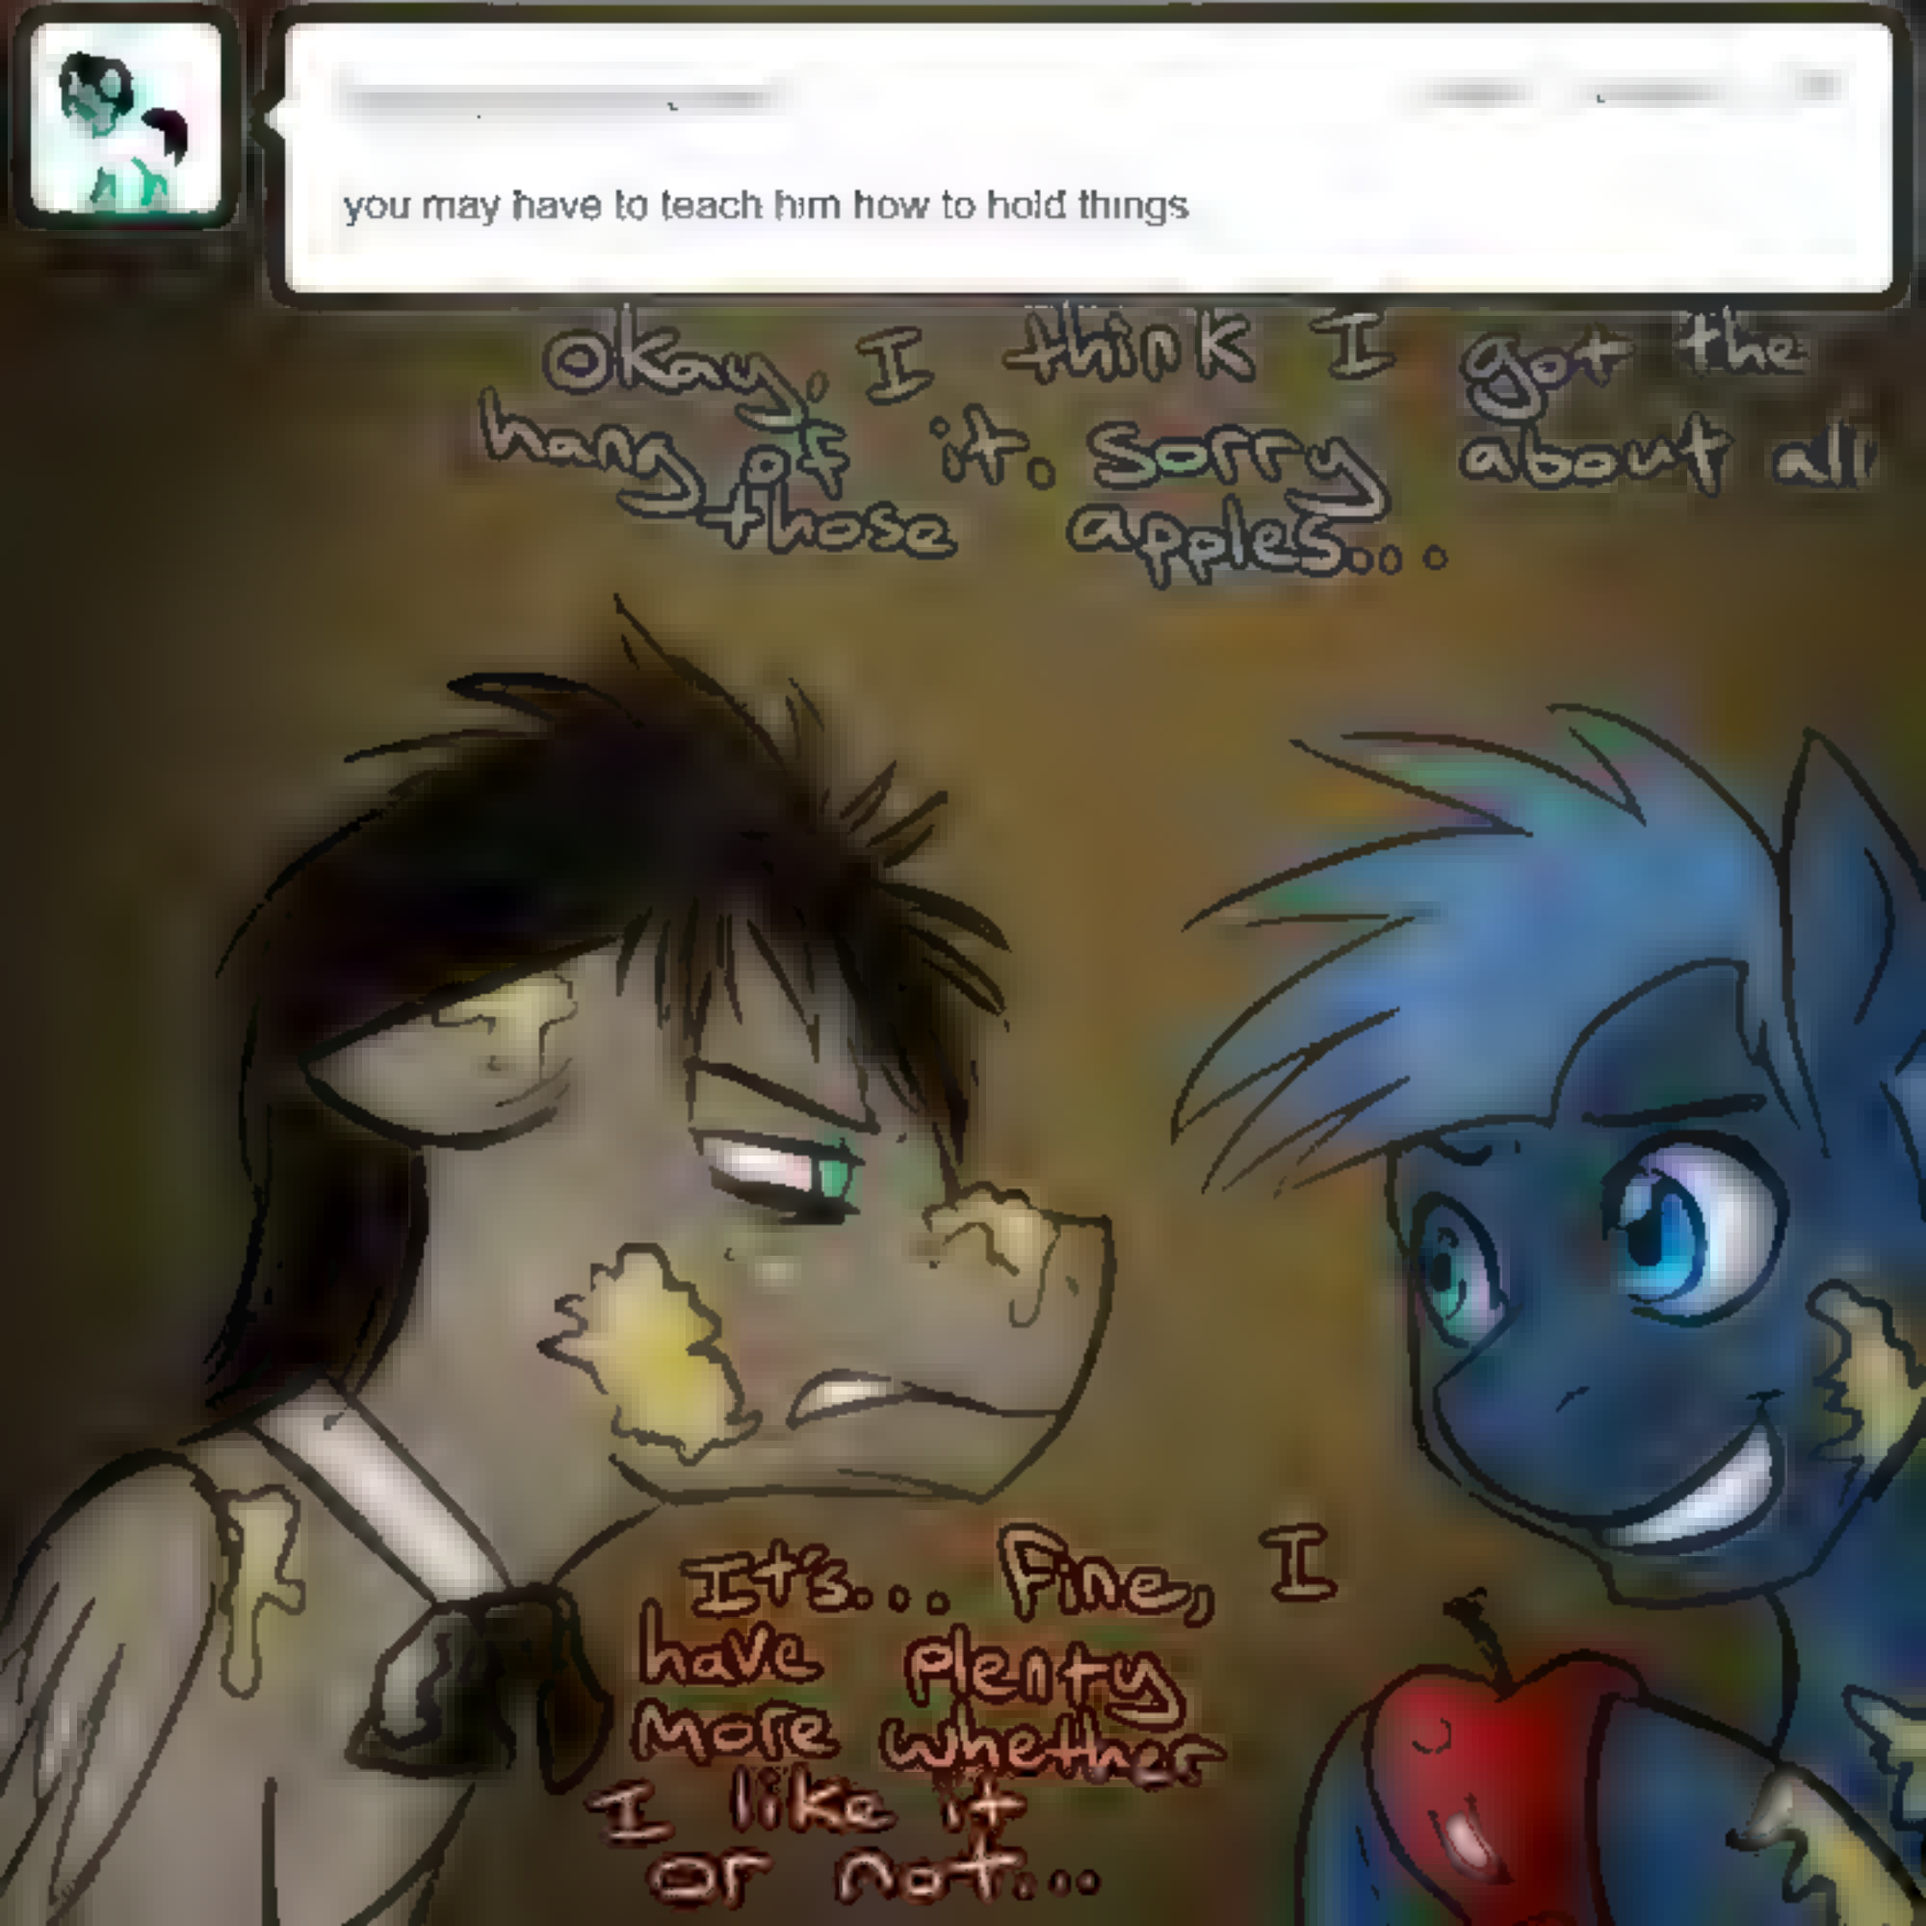


Basically... I've been trying to
make a new life for myself

Yeah I'm running away... But
I'm tired of ruining everyone's lives.

Heh. I seem to have picked up a lot of bad habits from you, Doc.

Ah, Come on! There's no reason to dwell on it!
Come on, how about you show me the ropes of this whole horse thing?
Er-R-Right..!



you may have to teach him how to hold things
okay, I think I got the hang of it. Sorry about all those apples...
It's... Fine, I have plenty more whether I like it or not...

I'm curious, would ponies wearing clothes be like humans being naked?
...I don't think it works like that...

Are you sure you're not just hearing voices, Doc?
This seems a bit weird to—

Can Jack read these quest ons? If so, Hel o Captain Jack! Say I'm curious what were you doing before the Doctor sucked you into th s crazy pony universe?

oh, hey there~♥

Stop ♂ flirting.

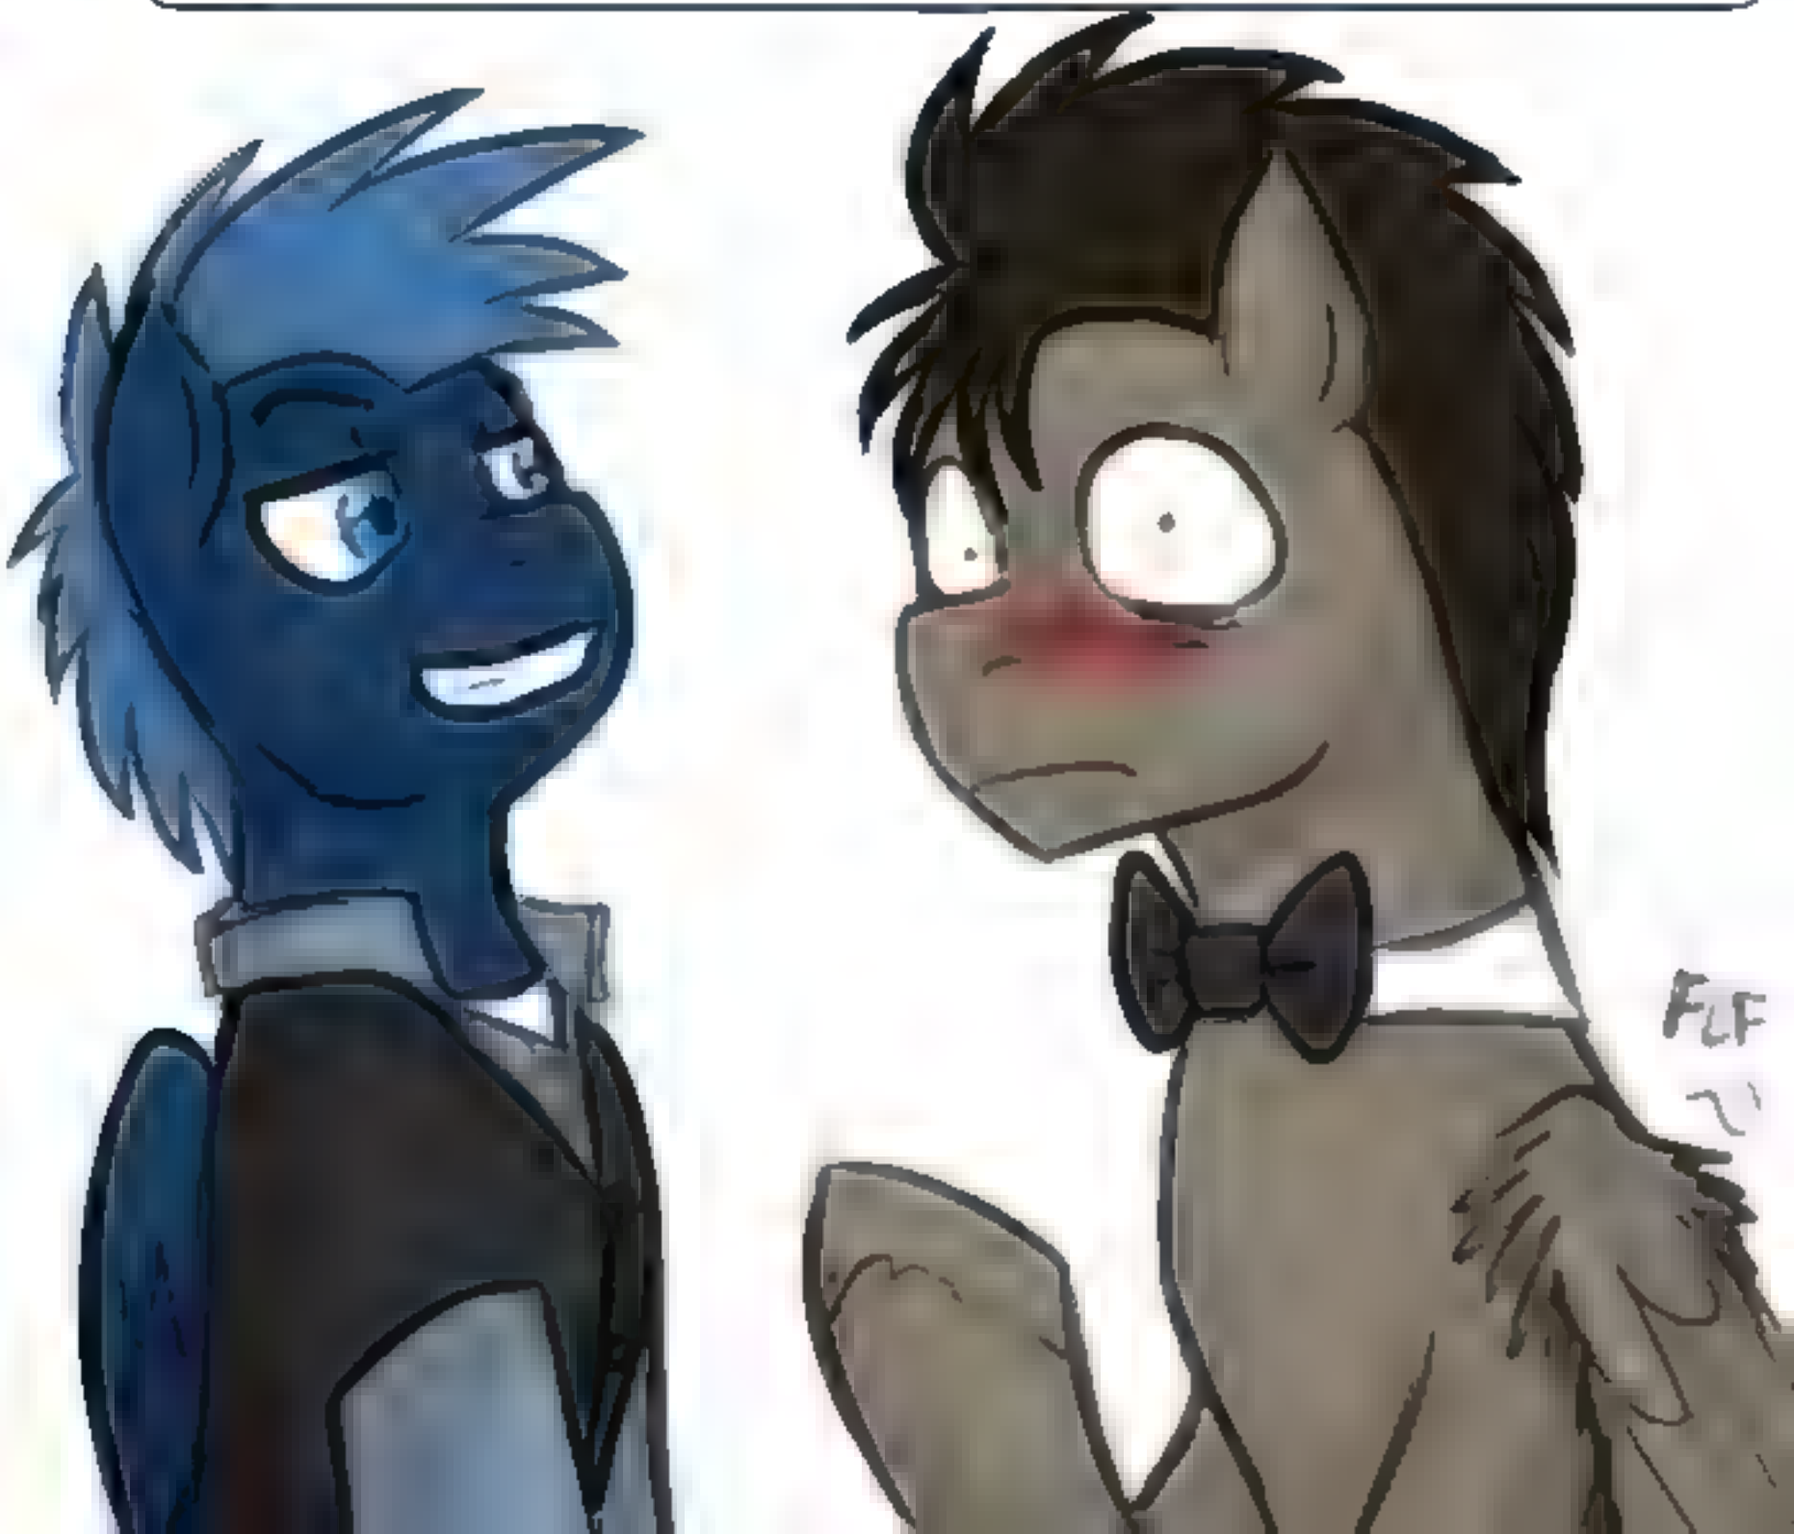
Juuust saying 'hello'.

Well, you might say I've been soul-searching. After I left earth I let loose, explored around. Doc introduced me to Alonso at a bar which was a god-send... Sweet guy, bit of a screamer... I last saw him at the space docks before his next cruise, and that's when I picked up that Dalek signal.

So, you're telling me as long as I'm in here I can hear them?
Right, that's how it works. The TARDIS is linked to me so I hear them practically anywhere, but you don't have to worry about it.

[redacted]

omg doc. just jump his bones already!



What are you 'fluffing' up about? You don't 'like' Jack, do you Doctor?
No, you just threw me off!
I don't know, Doc, you've been awfully jumpy around me lately. You sure about that?

I'm just happy to see you again, alright?!

Whatever you say.

Okay Doctor, be a little more affectionate for your Jackie. It's been 300 - 600 years since you last saw him!
